**3. PROSPECTUS SUMMARY (Cont'd)**

---

**3.5 RISK FACTORS**

An investment in our Shares involves a number of risks, many of which are beyond our control. Before deciding to invest in our Shares, you should carefully consider all the information contained in this Prospectus, including the risk factors set out in Section 9 of this Prospectus, the key risks of which have been summarised as follows:

**(i) Our business and financial performance are dependent on our ability to secure new projects to replenish our order book**

In order to sustain our business operations and financial performance, we would have to continuously secure new interior fit-out projects. As our projects are typically awarded through tender process, we are required to actively participate in tender exercises and submit proposals for each potential project. However, there is no assurance that we will be successful in every tender or in securing new projects on a continuous basis in the future. If we are unable to consistently replenish our order book with new projects, it may materially and adversely affect our revenue, profitability and future prospects.

While our Group continuously seeks to maintain and strengthen existing business relationships, as well as establish relationships with new customers to expand our network, any adverse economic conditions or a slowdown in the industries in which our customers operate may negatively affect our ability to secure new projects. This may have a material adverse effect on our Group's business operations and financial performance.

**(ii) We are dependent on the quality of services of our subcontractors and materials from our suppliers**

We engage subcontractors to carry out on-site fit-out activities for all of our interior fit-out projects. As such, we are exposed to risks associated with the performance, timely delivery and quality of works or materials provided by our subcontractors or suppliers. In the event that our subcontractors fail to deliver the work in accordance with the project schedule and quality requirements, it may result in project delays, additional costs or potential claims from our customers. It may also affect our reputation, which could subsequently impact our ability to secure new projects from existing or new customers in the future.

**(iii) Our business is dependent on certain registrations, licences and permits**

As an interior fit-out services provider, we are required to obtain and hold valid registrations and/or licences with authorities such as CIDB.

We must comply with any regulations, terms and conditions imposed by the relevant authorities to retain such registrations and/or licences. Failure to comply with the regulations, terms and conditions imposed by the relevant authorities may result in the imposition of fines and penalties, suspension, cancellation or non-renewal of our registrations and/or licences. The failure to keep or renew promptly the requisite registrations and/or licences could result in the suspension or restrictions in our business operations, including our ability to participate in tenders and to carry out interior fit-out services which would adversely affect our business operations and financial performance.

### 3. PROSPECTUS SUMMARY (Cont'd)

(iv) **Any breaches of health, safety and environment (“HSE”) laws and regulations may result in penalties including the suspension of our operations**

We must comply with the relevant HSE laws and regulations at the worksites. Failure to comply with the relevant HSE laws and regulations, and events such as worksite accidents that injure or harm our employees, subcontractors and people within the premises may lead to the relevant authorities taking action against us, such as suspending or restricting our operations at the affected worksite and/or taking administrative or legal action against us.

(v) **We face the risk of cost overruns for our interior fit-out projects**

In preparing our tender submission, we estimate the project costs and budget based on quotations obtained from our suppliers and subcontractors, as well as our internal cost estimations.

However, the profitability of our projects, and eventually our Group’s financial performance, may be impacted by unforeseen increases in project costs that arise after the submission of our tender or proposal up until project completion. These may include variation orders, as well as unfavourable fluctuations in the price of materials and subcontractor costs. If we are unable to pass on these cost increases to our customers, such events may result in cost overruns, which could adversely affect our profit margins and overall financial results. Any prolonged delay in the project execution may require us to extend the engagement period with our subcontractors and may further contribute to cost overruns.

In the event that our actual cost for these upgrade and enhancement of digital infrastructure is higher than estimated, the deficit will be funded by internally generated funds.

- (d) We have earmarked RM0.80 million of the proceeds from our Public Issue for geographical market expansion by setting up offices through co-working spaces and recruiting new personnel in the Philippines and Indonesia in order to tap into new opportunities in the respective markets. Given the nature of our business where our personnel are able to work remotely, the rental of co-working space offers flexibility to scale up in the future.

**4. DETAILS OF OUR IPO (Cont'd)*****Branch office in the Philippines***

As at the LPD, our Group is still in the process of identifying a suitable location in Manila, the Philippines for the establishment of the branch office.

The estimated breakdown of the costs for setting up a branch office in the Philippines is as follows:

<b>Details</b>	<b>RM'000</b>
Rental of co-working space <sup>(i)</sup>	40
Staff costs <sup>(ii)</sup>	370
<b>Total</b>	<b>410</b>

Notes:

- (i) Estimated rental expense for 24 months.
- (ii) Include salaries and related costs of 2 personnel, including 1 Project personnel and 1 Business Development personnel for 18 months.

***Branch office in Indonesia***

As at the LPD, our Group is still in the process of identifying a suitable location in Jakarta, Indonesia for the establishment of the branch office.

The estimated breakdown of the costs for setting up a branch office in Indonesia is as follows:

<b>Details</b>	<b>RM'000</b>
Rental of co-working space <sup>(i)</sup>	20
Staff costs <sup>(ii)</sup>	370
<b>Total</b>	<b>390</b>

Notes:

- (i) Estimated rental expense for 24 months.
- (ii) Include salaries and related costs of 2 personnel, including 1 Project personnel and 1 Business Development personnel for 18 months.

Please refer to Section 7.18 of this Prospectus for further details on our business strategies and future plans in relation to business expansion.

**4.8.2 Performance bonds for interior fit-out projects**

We intend to allocate RM3.00 million of the proceeds from our Public Issue for the payment of collateral and associated fees in respect of bank guarantees obtained for performance bonds for our future projects.

Some of the projects that we are involved in require performance bonds in the form of bank guarantee to the awarding party, as security for proper and due performance of works as set out in the contracts. In order for a licensed bank to issue a bank guarantee for performance bonds in favour of our customers, we may be required to maintain a security deposit in the form of fixed deposits pledged with licensed banks.

#### 4. DETAILS OF OUR IPO (Cont'd)

The quantum of the performance bonds may differ between contracts and is typically up to 5% of the total contract sum. Depending on the specific contract terms, the validity of a performance bond is generally up to the issuance of CPC or up to a period of 3 months after issuance of CPC. This results in the lock-up portion of our working capital and may affect our liquidity during the duration of the project as we are unable to utilise this sum for our working capital requirements.

As at the LPD, our Group has provided performance bonds amounting to RM2.09 million in the form of bank guarantee. The allocation of our IPO proceeds for performance bonds is expected to improve our liquidity and cash flow position, which would provide us with greater flexibility to pursue more interior fit-out projects that require performance bonds.

##### 4.8.3 Repayment of bank borrowings

We propose to utilise RM1.20 million of the proceeds from our Public Issue to partially repay our existing bank borrowings. The breakdown of borrowings to be repaid is as follows:

Name of financial institution	Facility	Outstanding amount as at the LPD (RM'000)	Amount to be repaid (RM'000)	Interest rate (% per annum)	Maturity date	Purpose of loan
Standard Chartered Bank Malaysia Berhad	Term loan	865	865	8.70 (Base Lending Rate + 2.00%)	Oct 2031	Working capital
CIMB Islamic Bank Berhad	Term loan	888	335	8.60 (Base Financing Rate + 1.75%)	Jan 2032	Working capital
<b>Total</b>		<b>1,753</b>	<b>1,200</b>			

As set out in the table above, the repayment of the abovementioned term loan is expected to result in interest savings of approximately RM0.10 million per annum based on the prevailing interest rates of these facilities. Our Group has identified the abovementioned term loan for repayment as it reduces our long-term fixed debt obligations and results in long-term interest savings. There are no covenants attached to the term loan above which restrict early repayment or impose penalties on early repayment.

Based on the pro forma combined statement of financial position as at 30 September 2025, the repayment of bank borrowings is expected to reduce the gearing ratio of our Group from 0.71 times as at 30 September 2025 to 0.31 times (after Public Issue and utilisation of proceeds).

The final settlement amount will be determined based on the date of repayment and the actual interest savings may vary depending on the prevailing interest rate. If the actual outstanding amount of the abovementioned term loan as at the time of repayment is less than the amount allocated, the excess amount will be reallocated to our working capital.

#### 4. DETAILS OF OUR IPO (Cont'd)

##### 4.8.4 Working capital

Our Group's working capital is expected to increase in conjunction with the expansion of our business. We have allocated RM3.90 million of the proceeds from our Public Issue to supplement the working capital requirements of our Group as follows:

Details	RM'000
Purchase of materials for projects <sup>(a)</sup> and payments to subcontractors <sup>(b)</sup>	3,900
<b>Total</b>	<b>3,900</b>

Notes:

- (a) Purchase of materials for interior fit-out works such as furniture and fittings, audio visual systems, hardware, air-conditioners, tiles, plasters, panel and lightings.
- (b) Subcontractors' fees, covering labour and services related to installation, finishing works and other project-specific requirements.

##### 4.8.5 Estimated listing expenses

We have allocated RM3.60 million of the proceeds from our Public Issue to defray our estimated listing expenses as follows:

Details	Estimated costs RM'000
Professional fees <sup>(a)</sup>	2,500
Brokerage, underwriting and placement fees	430
Fees payable to authorities	70
Fees and expenses for printing and advertising	350
Miscellaneous expenses and contingencies <sup>(b)</sup>	250
<b>Total</b>	<b>3,600</b>

Notes:

- (a) Include professional and advisory fees for, amongst others, Principal Adviser, Solicitors, Reporting Accountants, IMR and internal control consultants.
- (b) Other incidental or related expenses in connection with the IPO, which include translators, media related expenses and IPO event expenses.

If the actual listing expenses are higher than estimated, the deficit will be funded out of the proceeds allocated for working capital purposes and/or by internally generated funds. Conversely, if the actual listing expenses are lower than estimated, the excess will be used for working capital purposes.

Pending the eventual use of the gross proceeds from the Public Issue for the above intended purposes, we will place such funds in interest-bearing fixed deposit accounts with licensed financial institutions and/or in short-term money market instruments as our Directors may deem appropriate.

Our Company will not receive any proceeds from the Offer for Sale. The gross proceeds from the Offer for Sale of RM7.90 million will accrue entirely to the Selling Shareholders. The Selling Shareholders shall bear the entire incidental expenses and fees in relation to the Offer for Sale, amounting to approximately RM0.20 million.

**4.11 TRADING AND SETTLEMENT IN SECONDARY MARKET**

Upon our Listing, our Shares will be traded through Bursa Securities and settled by book-entry settlement through the CDS (which is operated by Bursa Depository). This will be effected in accordance with the Rules of Bursa Depository and the provisions of the SICDA. Accordingly, our Company will not deliver share certificates to the subscribers of our IPO Shares.

Beneficial owners of our Shares are required under the Rules of Bursa Depository to maintain our Shares in CDS accounts, either directly in their name or through authorised nominees. Persons whose names appear in the Record of Depositors maintained by Bursa Depository will be treated as the shareholders of our Company in respect of the number of Shares credited to the respective CDS accounts.

Transactions in our Shares under the book-entry settlement system will be reflected by the seller's CDS account being debited with the number of Shares sold and the buyer's CDS account being credited with the number of Shares acquired.

Trading of shares of companies listed on Bursa Securities is normally done in "board lots" of 100 shares. Investors who desire to trade less than 100 shares will trade under the odd lot board. Settlement of trades done on a "ready" basis on Bursa Securities generally takes place on the second Market Day following the transaction date, and payment for the securities is generally settled on the second Market Day following the transaction date.

It is expected that our IPO Shares will not commence trading on Bursa Securities until about 10 Market Days after the closing date of the Applications. Subscribers of our Shares will not be able to sell or otherwise deal in our Shares (except by way of a book-entry transfers to other CDS accounts in circumstances which do not involve a change in beneficial ownership) prior to the commencement of trading on Bursa Securities.

### 6.9 GOVERNING LAWS AND REGULATIONS

Our business is regulated by, and in some instances required to be licensed under specific laws of Malaysia. The relevant laws and regulations governing our Group which do not purport to be an exhaustive description of all laws and regulations of which our business is subject to, are summarised below.

As at the LPD, save for those non-compliances disclosed herein, our Group complies with all the laws and regulations governing the conduct of our business which may materially affect our Group's operations.

#### 6.9.1 CIDB Act

The CIDB Act regulates, amongst others, the registration of contractors and construction personnel.

Section 25 of CIDB Act stipulates that a contractor must be registered with CIDB and holds a valid certificate of registration issued by CIDB under the CIDB Act in order to carry out or complete, undertake to carry out or complete any construction works or hold himself out as a contractor. CIDB may suspend, revoke, reinstate or refuse any registration made by any person under the CIDB Act.

Contravention of Section 25 is an offence, and the offender shall, on conviction, be liable to a fine for an amount not less than RM10,000.00 and not more than RM100,000.00.

Section 34 of CIDB Act, if a contractor is awarded with a contract to construction works, he shall declare and submit the contract which he has been awarded to CIDB in the manner prescribed. If the contract awarded involves a contract sum of above RM500,000.00, whether the contract is stamped or not, the contractor shall pay to CIDB a levy at the rate of 0.25% of the contract sum. If the contractor fails to pay any levy due within prescribed period as stipulated by CIDB, the contractor shall be liable of an offence and shall, on conviction, be fined for an amount not more than RM50,000.00 or 4 times the amount of such levy payable, whichever is higher. However, according to Lembaga Pembangunan Industri Pembinaan Malaysia (Imposition of Levy) (No. 2) Order 2024, the rate of levy imposed on a contractor is varied from 0.25% to 0.125% of the contract sum. Such order shall continue to be in operation for the period from 1 January 2025 until 31 December 2025.

Section 34B of CIDB Act further requires a contractor undertaking any construction works to:

- (a) notify and submit to CIDB any information and documents, including any supporting documents relating to the construction works, whether new or otherwise, in accordance with the CIDB Act;
- (b) ensure the construction works are carried out in accordance with the provisions of the CIDB Act, any regulations, terms and conditions imposed by CIDB and any other written law; and
- (c) ensure the safety of the building and the construction works whether during or post construction works.

As at the LPD, our Subsidiary, AISSB holds a valid G7 certificate of registration issued under the CIDB Act for the categories of building, civil engineering and M&E, which allows AISSB to tender for contracts with no limit to the contract value.

As at the LPD, there has been no non-compliance by our Group in relation to the requirements under the CIDB Act that may have a material adverse impact on our business operations. In addition, since our inception and up to the LPD, our Group has not been issued any notice or penalty from CIDB pursuant to the CIDB Act or the applicable regulations thereunder.

Pursuant to Section 16 of OSHA, it shall also be the duty of every employer to prepare and where appropriate, revise a written statement of a general policy with respect to the safety and health at work of the employees and the organisation and arrangements for carrying out that policy, and to bring the statement and any revision of it to the notice of all of the employees.

Section 18A of OSHA further provides that it shall be the duty of every principal to take, so far as is practicable, such measures as are necessary to ensure the safety and health of any contractor engaged by the principal, any subcontractor or indirect subcontractor, and any employee employed by such contractor or subcontractor, when at work. However, it is to be noted that such duty imposed shall only be applicable when such contractor, subcontractor or employee is working under the direction of the principal as to the manner of the work being carried out.

Under Section 29 of OSHA, an occupier of a place of work shall appoint a person who is competent to act as a safety and health officer at the place of work, if the place of work falls under the class or description as defined in Section 3 of the Occupational Safety and Health (Safety and Health Officer) Order 1997 (“**OSHA Order**”). Any employer who breaches this section shall be liable of an offence and shall, on conviction, be fined for an amount not exceeding RM50,000.00 or to imprisonment for a term not exceeding 6 months or to both.

However, under Section 30 of OSHA, if, *inter alia*, there are forty or more persons employed at the place of work, the employer shall establish a safety and health committee. Every employer shall consult the safety and health committee with a view to the making and maintenance of arrangements which will enable him and the employees to co-operate effectively in promoting and developing measures to ensure the safety and health of the employees at the place of work, and in checking the effectiveness of such measure. Any employer who breaches this section shall be liable of an offence and shall, on conviction, be fined for an amount not exceeding RM100,000.00 or to imprisonment for a term not exceeding 1 year or to both.

As at the LPD, our Group is in compliance with the relevant provisions under the OSHA.

As at the LPD, all of our Group’s tenanted properties have been issued with a valid CCC.

### 6.9.4 Local Government Act 1976 (“LGA”) and Licensing of Trades, Businesses and Industries (Shah Alam City Council) By-Laws 2007 (“MBSA By-Laws”)

Pursuant to Section 102 of the LGA, local authorities are empowered to make, amend and revoke by-laws. As at the LPD, our Group holds and maintains valid business licences issued by SACC for our business premises and is in compliance with the relevant provisions of the LGA and the MBSA By-Laws.

### 6.9.5 Employees Provident Fund Act 1991 (“EPF Act”)

Pursuant to Section 43(1) of the EPF Act, every employee and every employer of a person who is an employee within the meaning of EPF Act shall be liable to pay monthly contributions on the amount of wages for the month at the rate respectively set out in the Third Schedule of EPF Act.

‘Wages’ is defined under Section 2 of the EPF Act as, all remuneration in money, due to an employee under his contract of service or apprenticeship whether agreed to be paid monthly, weekly, daily or otherwise and includes any bonus, commission or allowance payable by the employer to the employee whether such bonus, commission or allowance is payable under his contract of service, apprenticeship or otherwise, but does not include:

- (a) service charge;
- (b) overtime payment;
- (c) gratuity;
- (d) retirement benefit;
- (e) retrenchment, lay-off or termination benefits;
- (f) any travelling allowance or the value of any travelling concession; or
- (g) any other remuneration or payment as may be exempted by the Minister.

## 6. INFORMATION ON OUR GROUP (Cont'd)

Section 43(2) of the EPF Act provides that any employer who fails to pay to EPF any contributions which he is liable under the EPF Act to pay in respect of or on behalf of any employee shall be guilty of an offence and shall, on conviction, be liable to imprisonment for a term not exceeding 3 years or to a fine not exceeding RM10,000.00 or to both. Section 45(3) of the EPF Act further provides that where an employer fails to pay any contributions due, the employer shall in addition to such contributions, be liable to pay dividend on such contributions at the rate and in accordance with any manner and calculation determined by the EPF Board. Under Section 49(1) of the EPF Act, where the amount of the monthly contributions or part thereof is not paid within the time prescribed, the employer shall be liable in addition to the dividend to be paid under subsection 45(3), to pay late payment charges on such amount at such rate and in accordance with any manner and calculation determined by the EPF Board.

AISSB has not made EPF contributions in respect of the phone allowance, commission and festivity gift recorded as "bonus" paid to the employees for the FYE 2022, FYE 2023 and FYE 2024, in view that such EPF contributions is not stated in the employment letter of the respective employees and the Company is not contractually bound to make such payment.

Upon being made aware of the non-compliances pursuant to the due diligence conducted on our Group, AISSB had on 10 April 2025, on its own volition written to EPF to seek clarification on the requirement to make EPF deductions and employer's contributions for such allowance, commission and bonus.

AISSB had on 31 December 2025, received the notice of assessment from EPF on the outstanding EPF contributions to be paid by AISSB amounting to RM74,808.00 ("**Outstanding EPF Contributions**"). On 4 February 2026, AISSB had also been informed of the late payment charges and accrued dividend in respect of the Outstanding EPF Contributions amounting to RM12,587.00 and RM10,952.00, respectively. AISSB has made the full payment of the Outstanding EPF Contributions on 31 December 2025 and accrued dividend on 4 February 2026. However, a provision has been made for late payment charges for the FPE 2025 as our Group intends to file an appeal with the EPF to seek a reduction or waiver of the late payment charges imposed and no payment for late payment charges has been made.

There is no material impact to our Group's business operations and financial condition as steps have been undertaken to rectify such non-compliance and the total amount of RM98,347.00 (comprising Outstanding EPF Contributions, late payment charges and accrued dividend) only represents approximately 1.52% of our Group's PAT for FPE 2025.

### 6.9.6 Employees' Social Security Act 1969 ("ESS Act") and Employment Insurance System Act 2017 ("EIS Act")

Pursuant to Section 5(1) of the ESS Act, all employees in industries to which ESS Act applies irrespective of the amount of wages shall be insured in the manner provided by ESS Act. Section 6(1) provides that the contribution payable under ESS Act in respect of an employee shall comprise contribution payable by the employer and contribution payable by the employee and shall be paid to SOCSO.

According to Section 14A of the ESS Act, where the amount of the monthly contributions or part of any monthly contributions which are payable by any employer under Section 6 of the ESS Act is not paid within such period as may be prescribed by the regulations, the employer shall be liable to pay interest to be credited to SOCSO on such amount at such rate as may be prescribed by the regulations in respect of any period during which such amount remains unpaid. Furthermore, pursuant to Section 94 of the ESS Act, if any person, *inter alia*, fails to pay any contribution which is payable by him under the ESS Act or fails to pay within the time prescribed by regulations any interest payable under Section 14A of the ESS Act, he shall be punishable with imprisonment for a term which may extend to 2 years, or with fine not exceeding RM10,000.00 or with both.

## 6. INFORMATION ON OUR GROUP (Cont'd)

Pursuant to Section 16(1) of the EIS Act, all employees in the industries to which EIS Act applies shall be registered and insured by the employers, in the case of employees who are employed on or before the date the industries are registered under Section 14 of the EIS Act, on the date the industries of the employers are so registered, and in the case of employees who are employed after the date the industries are registered under Section 14 or 15 of the EIS Act, within 30 days from the date the employees enter into employment, in such manner as prescribed irrespective of the amount of wages. Section 16(5) of the EIS Act provides that any person who contravenes Section 16(1) of the EIS Act commits an offence and shall, on conviction, be liable to a fine not exceeding RM10,000.00 or to imprisonment for a term not exceeding 2 years or to both.

During the FYE 2022, FYE 2023 and FYE 2024, no relevant deductions were made from the phone allowance, commission and bonus paid to the employees of AISSB to make the relevant SOCSO and EIS contributions. Upon being made aware of this non-compliance pursuant to the due diligence conducted on our Group, AISSB had on 16 May 2025, voluntarily made payment in respect of the outstanding SOCSO and EIS contributions.

As at the LPD, our Group has paid all contributions and has not been imposed or received any penalty for such non-compliance.

### 6.9.7 Pembangunan Sumber Manusia Berhad Act 2001 (“PSMB Act”)

PSMB Act provides for the imposition and collection of human resources development levy for the purpose of promoting the training and development of employees, the establishment and administration of the Human Resources Development Fund (“Fund”) by the Pembangunan Sumber Manusia Berhad (“Corporation”).

Pursuant to Section 13(1) of PSMB Act, every employer to whom PSMB Act applies shall register with the Corporation within such time and in such manner as may be prescribed. Any employer who contravenes Section 13(1) of PSMB Act commits an offence and shall on conviction be liable to a fine not exceeding RM10,000.00 or to imprisonment for a term not exceeding 1 year or to both, as provided under Section 13(2) of PSMB Act.

Pursuant to Section 14(1) of PSMB Act, every employer shall pay a human resources development levy in respect of each employee at the rate of 1% of the monthly wages of the employee. Any employer who fails to pay any levy due under Section 14(1) of PSMB Act within such period as may be prescribed commits an offence and shall on conviction be liable to a fine not exceeding RM20,000.00 or to imprisonment for a term not exceeding 2 years or to both, as provided under Section 14(2) of PSMB Act.

Based on amendment to the First Schedule of the PSMB Act which came into effect on 1 March 2021, PSMB Act applies to employers with 10 or more employees in several industries, including construction. Therefore, AISSB was required to register with the Corporation on 1 March 2021 of which the due date for registration was extended by the Corporation to 30 April 2021. However, AISSB did not comply with the due date for registration but had only registered with the Corporation and began contributing to the Fund in February 2024.

As at the LPD, our Group has not been imposed or received any penalty for such late registration. In addition, there is no backpay of levy required or imposed for the duration that AISSB should have paid the levy (from May 2021 to January 2024). There is no material impact to our Group’s business operations and financial condition as the past non-compliance has been rectified.

## 6. INFORMATION ON OUR GROUP (Cont'd)

### 6.9.8 Immigration Regulations 1963 (“Immigration Regulations”)

Regulation 39(b) of the Immigration Regulations provides that any person who without reasonable cause, contravenes or fails to comply with any condition imposed in respect of, or instruction endorsed on, any pass, permit or boundary pass issued under the Immigration Regulations, shall be guilty of an offence and shall be liable on conviction to a term of imprisonment not exceeding 6 months or to a fine not exceeding RM1,000.00 or to both.

During the FYE 2022, FYE 2023 and FYE 2024, AISSB had engaged foreign workers directly on ad-hoc basis to assist with general cleaning at several project sites. However, these foreign workers were not employed under the AISSB and their work permits are not registered under AISSB. AISSB had engaged the foreign workers directly during the FYE 2022, FYE 2023 and FYE 2024 due to flexibility in managing manpower based on project site’s requirements. Notwithstanding that, these workers had valid construction personnel registration card and were permitted to access the project sites during the engagement by AISSB. As such, there was no breach by AISSB of the condition in the Certificate of Registration as a G7 contractor which states that all workers at the construction site must have valid construction personnel registration card.

As at the LPD, AISSB has ceased and discontinued the direct engagement of foreign workers for the general cleaning at project sites. AISSB has instead engaged subcontractors to assist with the cleaning and moving furniture and fittings at the project sites.

As at the LPD, our Group has not been imposed or received any penalty for such non-compliance under the Immigration Regulations. There is no material impact to our Group’s business operations and financial condition as the non-compliance has been rectified.

### 6.9.9 Service Tax Act 2018 (“SST Act”)

Section 7 of the SST Act provides that service tax is a tax to be charged and levied on any taxable service provided in Malaysia by a registered person in carrying on his business or any imported taxable service. Section 12(1) of the SST Act further provides that the Minister may prescribe any person who provides any taxable service (“**taxable person**”) and the total value of taxable services of the person (“**total value of taxable service**”) for the purpose of registration of the person under Part IV of the SST Act.

Pursuant to Section 12(2) of the SST Act, any person who provides any taxable service is liable to be registered at the following time, whichever is the earlier, at the end of any month, where the total value of all his taxable services in that month and the eleven months immediately preceding that month has exceeded the total value of taxable service prescribed under Section 12(1) of the SST Act, or at the end of any month, where there are reasonable grounds for believing that the total value of all his taxable services in that month and the eleven months immediately succeeding that month will exceed the total value of taxable services prescribed under Section 12(1) of the SST Act.

The First Schedule of the Service Tax Regulations 2018 (“**SST Regulations**”) has been amended by the Service Tax (Amendment) Regulations 2025 whereby the scope of taxable service has been expanded to, among others, construction works with effect from 1 July 2025.

Pursuant to the SST Regulations, any person who provides construction works services (excluding the construction of a residential building and public facility related to the residential building) and where the value of the service exceeds the threshold value of RM1,500,000.00, must apply for registration with the Royal Malaysian Customs Department (“**RMCD**”).

Following the amendment of the SST Act, AISSB is required to register under the SST Act in respect of construction works as the total value of their interior fit-out services have exceeded RM1,500,000.00 in accordance with the requirements of the SST Act.

## 6. INFORMATION ON OUR GROUP (Cont'd)

Following a press release by Ministry of Finance titled 'Clarification on SST Expansion' dated 11 June 2025, where companies providing the newly taxable services have reached the revenue threshold in July 2025, such company will need to register by the month of August 2025 and only begin to charge service tax on their services beginning 1 September 2025.

AISSB had on 5 August 2025, submitted its application for the SST registration and had obtained the approval from RMCD for such registration on the same date.

Our Board is of the view that the past non-compliances disclosed in Sections 6.9.5, 6.9.6, 6.9.7 and 6.9.8 above will not have a material adverse impact to our Group based on the following:

- (a) save for the non-compliance to EPF Act as disclosed in Section 6.9.5 above, all past non-compliances have been remedied;
- (b) save for the late payment charges payable to EPF as disclosed under Section 6.9.5, none of the other authorities have issued any fines, notices or penalties to our Group as at the LPD; and
- (c) none of the officers from relevant authorities had issued any notice or warning to impose any fine to our Group during the course of our Group remedying the non-compliances.

In order to prevent the recurrence of regulatory non-compliances such as the aforementioned in the future, our Group has undertaken the following measures to enhance our internal control system:

- (a) a payroll software has been implemented with accurate configuration of statutory deduction, including EPF, SOCSO, EIS and human resources development levy to ensure compliance with regulatory requirements; and
- (b) our Group has established a Compliance Framework Policy which outlines the policies, procedures and control measures to monitor and ensure adherence to applicable laws.

In addition, our Group will keep abreast with any latest development on rules and regulations governing our Group's business operations to ensure continuous compliance with all relevant rules and regulations as part of the efforts to effectively manage our Group's compliance matters.

Our Group recognises the importance of upholding principles of sustainability across our operations. This commitment is embedded in our Sustainability Policy, which serves as a guiding foundation for the continuous adoption of our environmental, social and governance practices by our Group.

As part of our ongoing efforts, we have formed a Management Working Sustainability Committee to oversee and monitor environmental, social, and governance compliance with the Group's sustainability-related framework, policies and strategies.

Our Group is committed and has implemented the following practices and measures, among others:

#### (i) Environmental

We are committed to minimising our environmental footprint by embedding sustainable practices into our business operations. Our commitment is reflected in the following initiatives:

- (a) **Energy consumption:** We consistently encourage our employees to switch off all lights and electronic devices when not in use, particularly during lunch breaks and at the end of the workday. Additionally, motion sensor lighting has been installed in our workplace to enhance energy efficiency.
- (b) **Environmental accreditation:** Our environmental management system is accredited with the ISO 14001:2015 certification, demonstrating our capability to identify and address environmental concerns related to our business activities while minimising our environmental footprint through efficient resource management and waste reduction. Additionally, we conduct an environmental impact assessment to ensure the sustainability of the environment surrounding our operational sites.

---

**6. INFORMATION ON OUR GROUP (Cont'd)**

---

- (c) **Waste management:** Our Group's operational sites generate non-scheduled (solid) waste, such as used plastic, metal, paper and carton boxes that are no longer in good condition. Roll-on roll off bins and recycling bins are placed at the operational sites to ensure proper waste management and storage. Effective waste management is crucial in reducing the environmental impact of our operations by preventing industrial waste from contaminating the natural environment. In addition, we engaged a licensed waste management company to collect and treat the waste generated appropriately, ensuring compliance with the environmental rules and regulations.
- (d) **Leading certifications:** We take pride in our Group's involvement in projects that have obtained LEED certification. This accomplishment reflects our success in developing green building projects while upholding high standards, delivering reliable services and ensuring sustainable quality products from our suppliers. During the Financial Years and Period Under Review and up to the LPD, we have completed 4 LEED-certified projects. We shall strive to secure more green building projects to contribute positively to environmental sustainability.
- (e) **Paperless trail:** We also strive to promote a paperless culture in our offices. Our Group has adopted various software to reduce paper consumption in various business processes, such as document storage, communication and marketing. Reducing paper consumption leads to lower deforestation, less energy consumption in paper production, and reduced waste.

(ii) **Social**

Our Group prioritises the well-being of our stakeholders, including employees, suppliers and sub-contractors, through implementing social initiatives to promote social equity, enhance quality of life and foster sustainable developments. In addition, we are dedicated to empowering our workforce by cultivating a positive, inclusive workplace culture that encourages continuous growth and development, and creating a safe environment while ensuring equal opportunities for all. To uphold these values, we have implemented the following practices:

- (a) **Occupational safety and health:** Our Group has obtained ISO 45001:2018 Occupational Health and Safety ("OHS") Management System certification, ensuring compliance with safety protocols and fostering a safe work environment that prevents workplace accidents and injuries.

To further strengthen workplace safety, we have established a Safety and Health Committee ("SHC") responsible for overseeing and implementing occupational health and safety measures and we strictly adhere to OSHA. The SHC holds regular meetings to enforce health and safety practices, review incidents, implement corrective actions, introduce preventive measures, and monitor their effectiveness. With the support of SHC, our Group has implemented the following initiatives to uphold workplace safety and health:

- developed an OHS compliance monitoring checklist to ensure our Group complies with the relevant safety and health rules and regulations;
- conduct safety inspections at project sites and workplace periodically to identify and mitigate potential hazards;
- provide safety training including safety induction, first aid briefing, weekly toolbox briefing before work commencement at project sites;
- provide personnel protection equipment to our workforce; and

## 6. INFORMATION ON OUR GROUP (Cont'd)

- (b) **Equal opportunities and employment diversity:** Our Group is committed to creating a work environment where mutual respect is practised across the entire organisation. We adopt an equal opportunity and hire local policy that fosters diversity and practice equal employment opportunities with regard to gender, age, ethnicity, religion, marital status, amongst other factors. As at the LPD, we have a total workforce of 62 employees, of which more than 30% of our employees are female.
- (c) **Work-life balance and social activities:** We are dedicated to attracting local talent to our Group by improving the work environment, prioritising employee well-being, and promoting work-life balance while ensuring a workplace free from all forms of discrimination. ## 7. BUSINESS OVERVIEW (Cont'd)

### 7.7 PROCESS FLOW

Our general process flow for the provision of interior fit-out services is as follows:

#### (a) Tender process

##### Tender invitation/request for quotation

Upon receiving a tender invitation or request for quotation from a prospective customer (who may either be property owners and tenants, or interior fit-out consultants and project management consultants), we will conduct a preliminary assessment of the project. This includes evaluating the requirements, complexity, size, type, timeline, feasibility of the project, internal manpower and financial resources.

##### Tender preparation and submission

We will hold an internal meeting and form a project management team for participation in the tender, comprising personnel from our Project and Commercial departments, for the preparation of tender documents or proposal. During the meeting, we will discuss key aspects of the project, including the timeline, cost and any technical issues that may arise.

For turnkey fit-out services projects, our project management team will commence planning and coordinating with the prospective customer to develop a preliminary design concept, which includes 3D design concepts, space planning and layout plan designs. The project management team will also arrange for a site visit.

Thereafter, we will submit the tender documents or proposal, along with our quotation, to the prospective customer based on the specifications and requirements of the project for their review and evaluation. We may also be required to submit a tender bond, depending on the terms stated in the tender documents. Subsequently, the prospective customers may invite us to attend tender interviews to present details and provide clarifications on our tender proposal.

---

**7. BUSINESS OVERVIEW (Cont'd)**

---

Once the project is awarded to us, a LOA and/or purchase order will be issued to us by the customer to formalise the engagement. If our tender bid is not successful, the full amount of the tender bond is refunded.

Performance bonds are commonly required to be provided to the customers in the form of bank guarantee, upon execution of the contracts awarded. The performance bond is typically valid until the completion of the project.

**(b) Project planning and implementation**Project planning

For turnkey fit-out services projects, we will develop the entire project execution plan and timeline to align with our customer's requirements. We will also prepare the estimated overall fit-out costs based on quotations from relevant professionals, suppliers and subcontractors as well as monitoring budgets and expenditure based on the said estimated overall fit-out costs.

For both interior fit-out works and turnkey fit-out services projects, the project management team will be led by a project manager or project director to establish a project execution plan. The project management plan entails resource allocations, responsibilities of each team members, quality requirements, as well as project control and monitoring procedures. The project management team will also schedule a kick-off meeting with the customer to discuss the timeline, project requirements and technical specifications.

We will then liaise with various parties, including property owner or landlord, tenant, consultants and building management to obtain necessary documents for submission pertaining to space planning and layout plan designs to be made by architect to local authorities. The necessary documents will also be submitted to the building management to obtain necessary permits to commence fit-out activities.

Design planning and coordination

For turnkey fit-out services projects, our project management team will oversee, manage and coordinate the design concepts, space planning and layout plan designs together with our customer. This process entails our project management team conducting a site visit to gather additional requirements from customer, and also take site measurements and pictures for references. Based on the preliminary design concepts submitted during tender phase and feedback received from the customer, our Project personnel will then develop 3D perspective drawings.

For both interior fit-out works and turnkey fit-out services projects, we will proceed to prepare shop and MEP drawings. We will also prepare the material samples taking into account the customer's budget. Our Head of Design will approve the 3D perspectives and/or shop and MEP drawings, and material samples prior to sending it to our customer for approval.

Procurement of supplies and appointment of subcontractors

For turnkey fit-out services projects, upon receiving approval from the customer for the 3D perspectives, shop drawings, MEP drawings and material samples, our Commercial personnel will source materials and supplies based on the approved shop drawings and material samples, as well as assessing supplier's ability to meet the project timeline.

---

**7. BUSINESS OVERVIEW (Cont'd)**

---

For interior fit-out works projects, based on the design and specifications provided by our customer, we will request quotations and samples from our network of suppliers or from suppliers nominated by the customer. The samples will then be shared with the customer for approval. Once the selections are approved, we will proceed with the procurement process.

For both interior fit-out works and turnkey fit-out services projects, upon receipt of materials and supplies, our project management team will carry out an inspection to ensure that the quantity, specifications, and condition of the supplies align with our purchase orders and approved shop drawings and material samples. In the event where there are non-conformance of the materials and supplies, we will request for replacement or alternative from our suppliers and seek approval from customer for the change in materials and supplies.

Concurrently, subcontractors are appointed based on the scope of work, their capabilities and track record. We will also take into account their quality of workmanship, in addition to their competitiveness in terms of pricing and availability of manpower. We will provide them with the approved shop drawing and material samples, prior to the commencement of fit-out activities.

Fit-out activities

Upon taking possession of the site, fit-out activities will commence. Project personnel will be appointed to supervise on-site fit-out activities and ensure that all works are carried out in accordance with the approved material samples and specifications. Our Project personnel will also liaise with our subcontractors for daily updates on their work progress via an internal group chat.

Our Project personnel, together with our customer, will conduct weekly site meetings to review progress of the project, address any potential issues and implement necessary solutions to ensure adherence to the project timeline.

There may also be instances of variation orders. A variation order may increase, omit or vary the original scope of work and alter the original contract sum. Should the variation order lead to changes in our scope of works and materials, we will correspondingly negotiate with our customers, their appointed consultant, if any and also our subcontractors and suppliers in managing the cost approval and material lead time.

We will issue a progress claim at each stage of completion based on project milestone as stated in the LOA or purchase order. The stage of completion will be confirmed by either the customer or its appointed consultant by issuance of payment certification. Upon obtaining an approval on the progress claim, we will then issue an invoice to the customer.

**(c) Completion**

Inspection and handover

Upon completion of fit-out works, our project personnel will conduct a joint inspection with the customer and/or its appointed consultant. Any defects or outstanding works identified will be recorded and rectified accordingly.

Subsequently, we will hand over the necessary documents, including as-built drawings, operation and maintenance manuals, and other fit-out-related documentation to the customer. Our project management team will liaise with the customer or interior design consultant regarding the issuance of the CPC.

## 7. BUSINESS OVERVIEW (Cont'd)

The typical project duration, from project commencement to the issuance of CPC range between 2 and 6 months.

Within 6 months after the issuance of the CPC, we will issue a final account statement to our customer as a concluding financial document that reconciles the total cost of the project, including all variations, adjustments and claims.

### DLP

The DLP begins upon the issuance of the CPC. The duration of the DLP is typically 12 months from the date of the CPC. If defects occur within the DLP, our project management team will coordinate with our subcontractors to carry out the necessary rectifications. Our project management team will issue a defect list, documenting any defects identified. We will supervise the rectification works performed by our subcontractors. Upon completion of rectification works, an inspection will be arranged with the customer or its appointed consultant to obtain their sign-off on the defect list.

Upon the expiration of the DLP, the project management team will follow up with the customer for the issuance of Certificate of Making Good Defects that signify the end of the DLP.

The retention sum which generally equivalent to 5.00% of the contract value will typically be released at the end of the DLP.

## 7.8 QUALITY ASSURANCE AND QUALITY CONTROL ACTIVITIES

As a testament to our commitment to quality, we have obtained the following quality management system certifications:

ISO 45001:2018 Occupational Health and Safety Management System	Certification Partner Global	8 October 2024/ 8 October 2027	Provision of interior design and renovation services

In order to ensure the quality of our interior fit-out projects, we engage suppliers and subcontractors with relevant capabilities and track record based on the scope of work. Before onboarding them into our network of suppliers, we conduct a background check, as well as carry out an evaluation process, including reviewing their company profile, past performance and industry reputation, quality management certifications and product samples, where applicable.

Prior to appointing a supplier or subcontractor for a project, we will also assess their competitiveness in terms of pricing and availability of manpower to meet the project demands.

**7. BUSINESS OVERVIEW (Cont'd)**

Notwithstanding that, our Group is not dependent on the said 7 major customers due to the business nature of our Group which is project-based, where the revenue contribution from any customer may contribute a significant portion to our Group's revenue for any given financial year or period. Our Group may not secure similar projects in terms of size and scope with the same customers every year. As a result, our major customers vary from year to year.

**7. BUSINESS OVERVIEW (Cont'd)**

- (b) Supplier A Group comprises 2 private limited companies with common shareholders, namely Supplier A1 and Supplier A2. For the Financial Years and Period Under Review, our Group's total purchases from Supplier A Group comprised the following:

Name of supplier	FYE 2022		FYE 2023		FYE 2024		FPE 2025	
	(RM'000)	(%)	(RM'000)	(%)	(RM'000)	(%)	(RM'000)	(%)
Supplier A1	-	-	1,610	4.48	2,489	7.19	2,568	5.12
Supplier A2	1,768	7.35	810	2.26	86	0.25	-	-

Although the subcontractor services provided by AES ID accounted for more than 10.00% of our Group's total purchases for the FYE 2022 and FYE 2023, our Group is not dependent on AES ID nor any other suppliers or subcontractors as the subcontracted services and materials are widely available and can be easily sourced from other suppliers.

Our Group does not enter into any long-term agreements with our subcontractors and suppliers as our subcontractors' and suppliers' contracts are usually on contract-to-contract basis which is based on the requirements of the relevant contracts.

As at the LPD, the Group has a total of 1,306 approved subcontractors and suppliers (including sustainable quality products suppliers). Hence, the Group is able to source similar services and products from other subcontractors and suppliers in the market easily.

**7.15 SEASONALITY OR CYCLICAL EFFECTS**

During the Financial Years and Period Under Review, there was lower demand for our interior fit-out services during the first quarter of the year. This was mainly because customers generally aim to complete their interior fit-out projects before festive periods such as Chinese New Year which generally occur in the first quarter of the year.

**7.16 INTERRUPTIONS TO OUR BUSINESS**

We have not experienced any interruption in our business which had a significant adverse impact on our operations for the past 12 months preceding the date of this Prospectus.

**7.17 IMPACT OF THE COVID-19 PANDEMIC**

During the first MCO in March 2020, our business was not allowed to operate until we received MITI's approval on 4 May 2020 indicating that we were allowed to continue providing our interior fit-out services during other MCO periods, albeit with strict adherence to the standard operating procedures set out by the Government at the time.

A national lockdown policy was implemented from 1 June 2021 to 14 June 2021 and Phase 1 of the National Recovery Plan was implemented on 15 June 2021. Throughout this period, most economic sectors were not allowed to operate with the exception of essential economic and service sectors. While our Group was not able to continue our project activities at our customer's site, we continued to work from home and could carry out other business activities, such as project planning and design activities.

## 7. BUSINESS OVERVIEW (Cont'd)

By 3 January 2022, Malaysia entered into Phase 4 of the National Recovery Plan, where public and private sector workplaces were allowed to operate at full capacity, and physical meetings and gatherings were allowed with physical distancing. On 1 April 2022, Malaysia entered into the "Transition to Endemic" phase, and proceeded into the "Endemic" phase from 1 May 2022 onwards. Since then, all restrictions limiting business operations (such as working hours and number of employees in a workplace) have been uplifted.

There was no significant adverse impact on our financial performance for the Financial Years and Period Under Review since Malaysia entered into the "Endemic" phase, as evident by the growth in our revenue from RM30.91 million in the FYE 2022 to RM67.12 million in the FPE 2025.

### Impact on our supply chain

Our supply chain was, to a certain extent, affected during the various MCO periods as our suppliers were also impacted by the temporary suspension of business operations arising from the various lockdowns imposed by the Government. This included delays in the supply of fit-out materials as some of our suppliers were unable to operate at full capacity during the various MCO periods.

## 7.18 BUSINESS STRATEGIES AND FUTURE PLANS

### (i) We intend to expand our local operations

Presently, we serve local corporations and MNCs from various industries including the financial services, manufacturing, professional services, F&B services and pharmaceutical industries. Moving forward, we intend to further expand our customer base in Malaysia by actively approaching companies operating in other industries.

We have been actively approaching companies in the healthcare and private education industries. As at the LPD, we have completed interior fit-out projects for healthcare premises. We have also been pre-qualified as a supplier for an education service provider as at the LPD, and we are continuously seeking opportunities to be pre-qualified as interior fit-out service provider for other private education service providers.

Furthermore, we have had experience in interior fit-out project for industrial facilities where we provided interior fit-out services for the corporate office, including maintenance and repair area of a company involved in the provision of aerospace components-related services. We intend to actively approach companies to secure more interior fit-out projects for industrial premises moving forward.

Thus, we plan to carry out the following strategies to facilitate our business expansion locally:

### (a) Expansion of our corporate office and workforce to cater for the growth in Kuala Lumpur and Selangor

Our current corporate office is located in Shah Alam, Selangor, where we occupy 3 office units with total built-up area of approximately 4,252 sq. ft. Our current corporate office has existing workstations to accommodate our present workforce, save for the Project personnel who have shared workstations at our corporate office as some of these personnel are primarily stationed at the respective project sites for project implementation.

## 7. BUSINESS OVERVIEW (Cont'd)

As part of our business expansion plan, we plan to increase our workforce. In particular, we intend to recruit 11 additional personnel, comprising 6 Project personnel, 2 Commercial personnel, 2 Finance, Human Resources and Administrative personnel and 1 Business Development personnel. We have allocated RM2.20 million of our Public Issue proceeds to fund the salaries of these new recruits over the next 30 months.

To accommodate the expanded workforce, we also intend to rent a new office unit with built-up area of approximately 3,000 sq. ft. to 4,000 sq. ft. within the vicinity of our current corporate office. As at the LPD, we have yet to identify any suitable office unit for rent.

We estimate that the cost of renting the new office premises over a 30-month period will amount to RM0.60 million, which will be fully funded by the Public Issue proceeds. Meanwhile, we estimate that it will cost RM1.20 million to defray the interior fit-out works for the new office premises, and this will be fully funded via the Public Issue proceeds. The interior fit-out works mainly comprising wall and partition works, ceiling and flooring finishes, demolition works, carpentry and joinery works, MEP works, air-conditioning works and procurement of furniture and fittings.

For clarification, our Group intends to rent and utilise the new office unit for long-term (on renewable basis) of which the estimated rental expense subsequent to 30 months will be funded via internally generated funds. As such, we have taken into consideration our long-term goals as well as durability and quality of the interior fit-out works while estimating the costs of interior fit-out works. Nevertheless, the costs of interior fit-out works are indicative and may be subject to change depending on the design and layout plan, type of fit-out materials and furniture and fittings upon commencement of fit-out activities at the point in time. For the avoidance of doubt, our estimated costs of interior fit-out works for an office unit with built-up area of approximately 3,000 sq. ft. to 4,000 sq. ft. will be the same regardless of whether acquiring or renting the new office unit.

The estimations for office rental, costs for interior fit-out works and payroll expenses were based on publicly available market information, information provided by property agents, our cost estimation of interior fit-out works based on our experience and/or our current payroll expenses.

The expected timeline for the setting up of the expanded corporate office is as follows:

<b>Indicative timeline</b>	<b>Milestone</b>
Second quarter of 2026	<ul style="list-style-type: none"> <li>• Identification of premises to rent and signing of new tenancy agreement</li> <li>• Application for relevant approvals to commence interior fit-out works</li> </ul>
Third quarter of 2026	<ul style="list-style-type: none"> <li>• Commencement of interior fit-out works</li> <li>• Recruitment of new employees</li> </ul>
Fourth quarter of 2026	<ul style="list-style-type: none"> <li>• Complete interior fit-out works and commence operations at the new premises</li> </ul>

## 7. BUSINESS OVERVIEW (Cont'd)

Upon completion of the expansion of our corporate office, the number of workstations will increase from 34 to 54, which will be sufficient to accommodate our increased headcount taking into account that some personnel from our Project department will be required to station at the project site to oversee project implementation.

### (b) Setting up new branch offices in other states in Malaysia

Moving forward, we plan to set up branch offices in other states in Malaysia, specifically Penang, Johor and Sabah to accommodate dedicated personnel serving customers based in these states. During the Financial Years and Period Under Review, we have completed several interior fit-out projects in Penang and Johor. In addition, we have continued to receive enquiries for interior fit-out projects located in Penang and Johor as well as Sabah. Thus, setting up branch offices in these states will allow us to cater towards customer's demand, better serve our existing and prospective customers based in these states and at the same time, strengthen our market presence in these states.

We intend to recruit 3 personnel in each of these branch offices, comprising 2 Project personnel and 1 Finance, Human Resources and Administrative personnel.

For each state, we intend to set up our offices through the renting of co-working spaces. As at the LPD, our Group is still in the process of identifying a suitable location in Penang, Johor Bahru in Johor, and Kota Kinabalu in Sabah for the establishment of a branch office in each of these states.

The expected timeline for the establishment of a new branch offices in Penang, Johor and Sabah is as follows:

<b>Indicative timeline</b>	<b>Milestone</b>
<b><u>Penang</u></b>	
Third quarter of 2026	<ul style="list-style-type: none"> <li>• Identification of premises to rent and sign tenancy agreement</li> <li>• Recruitment of new employees</li> </ul>

<b><u>Johor</u></b>	
Third quarter of 2026	<ul style="list-style-type: none"> <li>• Identification of premises to rent and sign tenancy agreement</li> <li>• Recruitment of new employees</li> </ul>
Fourth quarter of 2026	<ul style="list-style-type: none"> <li>• Commence operations at the premises</li> </ul>
<b><u>Sabah</u></b>	
Fourth quarter of 2026	<ul style="list-style-type: none"> <li>• Identification of premises to rent and sign tenancy agreement</li> <li>• Recruitment of new employees</li> </ul>
First quarter of 2027	<ul style="list-style-type: none"> <li>• Commence operations at the premises</li> </ul>

We have allocated RM0.13 million of our Public Issue proceeds to fund the rental costs of the new branch offices over span of 30 months, as well as RM0.67 million to fund the salaries of these new recruits over a 12-month period.

**7. BUSINESS OVERVIEW (Cont'd)**

---

**(ii) We plan to enhance our operational efficiency through upgrading our digital infrastructure**

We plan to upgrade our IT systems and infrastructure that will support the growth in our workforce and enhance our operational efficiency.

In particular, we intend to:

**(i) Upgrade our IT systems and infrastructure**

To enhance our customer interactions and improve internal collaboration, we will invest in audio visual equipment. This will include equipment such as digital screens that showcases multimedia content such as images, videos, or text, mobile touch display that allows users to interact with a device by touching it with their fingers or a stylus, and room scheduling system equipped with digital screen which streamlines the process of booking shared spaces such as meeting rooms. This equipment will facilitate video conferencing, interactive presentations, and real-time collaboration on design concepts and project management. This will allow us to engage with customers more effectively and improve communication across departments, supporting our service delivery.

**(ii) Increase the number of hardware and software required**

With the expected growth of our workforce and operations, we will need to scale up the number of licences and subscriptions for designer software. This will ensure that all personnel have access to the necessary tools to perform their duties efficiently. Additionally, we will upgrade and expand our hardware such as desktops and laptops as well as supporting software applications to meet the demands of larger-scale projects and enhance employee productivity.

**(iii) Invest in cloud storage solutions**

Due to the nature of our business, we accumulate and store a large quantity of documentations comprising contracts and technical drawings. As our business grows, we expect that we will require larger capacity to store the increased quantity of such documentations. Thus, we intend to subscribe for additional cloud storage solutions to increase the capacity of cloud storage space.

We estimate the abovementioned investments will amount to RM0.80 million which will be funded via our Public Issue proceeds. The estimation for the costs for upgrade and enhancement of digital infrastructure were based on quotations obtained from the respective suppliers and service providers. In the event that the actual cost is higher than estimated, the deficit will be funded via internally generated funds. These investments are an integral part of our business expansion strategy, allowing us to scale our operations, enhance customer service and operational efficiency. The upgrade of IT systems and infrastructure will support our long-term growth by improving our project management capabilities and increasing collaboration, ultimately positioning the Group for success in a competitive market.

These hardware and software upgrades are vital to maintaining operational efficiency as we scale our business.

**7. BUSINESS OVERVIEW (Cont'd)**

---

**(iii) We intend to expand our reach in international markets**

Since the commencement of our business in 2004, our Group has primarily focused on the provision of interior fit-out services within Malaysia. Moving forward, we plan to continue to market our brand in overseas markets, specifically the Philippines and Indonesia. We have identified these 2 international markets in light of our track record of completing interior fit-out projects in the past. We intend to serve our existing customers that plan to expand into these markets.

To facilitate our overseas expansion, we intend to:

**(a) Establish physical offices in these markets**

We intend to establish physical offices in the Philippines and Indonesia as it will not only demonstrate our commitment to local growth but also serve as a base for expanding our operations, engaging with customers and managing projects effectively. We have identified Manila and Jakarta as our base locations in the Philippines and Indonesia respectively and are in the midst of identifying suitable co-working spaces to rent in both cities.

The expected timeline for the expansion of our business operations in the Philippines and Indonesia is as follows:

<b>Indicative timeline</b>	<b>Milestone</b>
<b><u>The Philippines</u></b>	
Fourth quarter of 2026	<ul style="list-style-type: none"> <li>• Identification of co-working spaces to rent</li> <li>• Incorporation of a subsidiary in the Philippines</li> </ul>
First quarter of 2027	<ul style="list-style-type: none"> <li>• Recruitment of new employees</li> <li>• Commence operations at the premises</li> </ul>
<b><u>Indonesia</u></b>	
Fourth quarter of 2026	<ul style="list-style-type: none"> <li>• Identification of co-working spaces to rent</li> <li>• Incorporation of a subsidiary in Indonesia</li> </ul>
First quarter of 2027	<ul style="list-style-type: none"> <li>• Recruitment of new employees</li> <li>• Commence operations at the premises</li> </ul>

The estimated cost for setting up each office, which comprise the respective office space rental for 24 months, will amount to approximately RM0.06 million, which will be funded through Public Issue proceeds.

**(b) Recruit and hire local and regional personnel**

We intend to recruit 1 Business Development personnel and 1 Project personnel for our branch offices in the Philippines and Indonesia. This will include experienced professionals in both business development and project management, ensuring that we have the right talent to navigate the local market and provide high-quality services to our customers. They will be tasked to engage in business development activities, facilitate project engagement and provide support for interior fit-out projects in the respective countries. The cost of salaries of the new personnel is estimated to cost approximately RM0.74 million over a span of 18 months, which will be funded via Public Issue proceeds.

By expanding into the Philippines and Indonesia, we aim to access new markets and strengthen our position as an interior fit-out service provider in the Southeast Asia region.

## 8. IMR REPORT (Cont'd)

Adnex Group Berhad and its subsidiaries (collectively referred to as “Adnex Group” or “the Group”) is principally involved in the provision of interior fit-out services in Malaysia. During the financial years ended (“FYE”) 31 December 2022 to 2024 and financial period ended (“FPE”) 30 September 2025, 99.82%, 99.76%, 99.32% and 100.00% of the Group’s revenue were generated from projects undertaken in Malaysia. As such, this IMR report will focus on the interior fit-out industry in Malaysia, which is the industry in which Adnex Group operates. The IMR report also covers an overview of the interior fit-out industry in the Philippines and Indonesia, as these are the markets that the Group intends to expand into.

# 1 THE INTERIOR FIT-OUT INDUSTRY IN MALAYSIA

## INTRODUCTION AND BACKGROUND

Interior fit-out services refer to the process of actualising designs in interior spaces, thereby making interior spaces suitable for occupation and aesthetically pleasing. It generally includes design planning, project planning and scheduling, identifying, sourcing and procuring materials, supplies and furniture, cost management, liaising with various parties for documentation to be submitted to relevant local authorities and building management, engagement and appointment of professionals (including mechanical and electrical (“M&E”) consultant engineer, civil and structural consultant engineer and/or architect) and subcontractors, as well as coordinating and managing on-site fit-out activities performed by various subcontractors, implementation of quality control and safety measures, and managing and monitoring rectification and repair of defects during the defect liability period. Subcontractors may be appointed to carry out various works including demolition and preparatory works for new installations, partition works, ceiling, tiling and flooring works, mechanical, electrical and plumbing works (including wiring, cabling and lighting installation), carpentry and fixture installation, painting and plastering works, sanitaryware installation, fixtures and fittings installation, fire protection system installation, as well as air-conditioning system and piping installation.

Interior fit-out services are provided to owners or tenants of properties. These services are required for:

- setting up new commercial, industrial or residential premises; or
- expansions of existing premises, and refurbishments and upgrading works of existing corporate offices or other premises.

In general, interior fit-out service providers may be involved in turnkey fit-out service projects or interior fit-out work projects. In the case of turnkey fit-out service projects, interior fit-out service providers coordinate, manage and supervise the entire interior fit-out process from the initial conceptual design, project implementation up to the project completion and handover upon issuance of Certificate of Practical Completion and rectification of defects during the defect liability period of the project. In the case of interior fit-out work projects, interior fit-out service providers typically provide interior fit-out works based on design provided by their customers.

Adnex Group provides both interior fit-out works and turnkey fit-out services. Adnex Group also specialises in providing interior fit-out services for commercial and industrial properties.

## INDUSTRY PERFORMANCE, SIZE AND GROWTH

The interior fit-out industry in Malaysia is measured in terms of value of work done, which is computed based on work progress achieved by contractors in relation to interior fit-out services during the calendar year period for project owners or investors, as reported by contractors to the Department of Statistics Malaysia (“DOSM”).

The interior fit-out industry, as measured by the value of work done for interior fit-out services, declined from RM1.3 billion in 2019 to RM817.8 million in 2020. This was primarily due to lower work capacity in compliance with containment measures, labour shortages due to international border closures, supply chain disruptions and site shutdowns following the Coronavirus disease (“COVID-19”) outbreak that began in 2020.

Subsequently, the interior fit-out industry began to recover as it increased to RM1.1 billion in 2021. This was in line with the easing of the containment measures since August 2021 and the reopening of the economy which supported the gradual improvement in building completion and finishing works.

However, there was a decline in the value of work done between 2022 (RM1.5 billion) and 2023 (RM1.2 billion). This was mainly attributable to the lower year-on-year growth rate of total property transactions in 2023 (10.2%) compared to 2022 (21.6%) mainly due to the higher cost of living in 2023, which subsequently affected consumer spending and resulted in property owners and tenants being more careful with their spending. As a result, property owners and tenants began scaling back on interior fit-out services in 2023. Nonetheless, the interior fit-out industry in Malaysia rebounded in 2024, rising from RM1.2 billion in 2023 to RM2.0 billion in 2024.

Overall, the interior fit-out industry in Malaysia grew from RM1.3 billion in 2019 to RM2.0 billion in 2024 at a compound annual growth rate (“CAGR”) of 9.6%. For the period from the first quarter (“Q1”) to the third quarter

## 8. IMR REPORT (Cont'd)

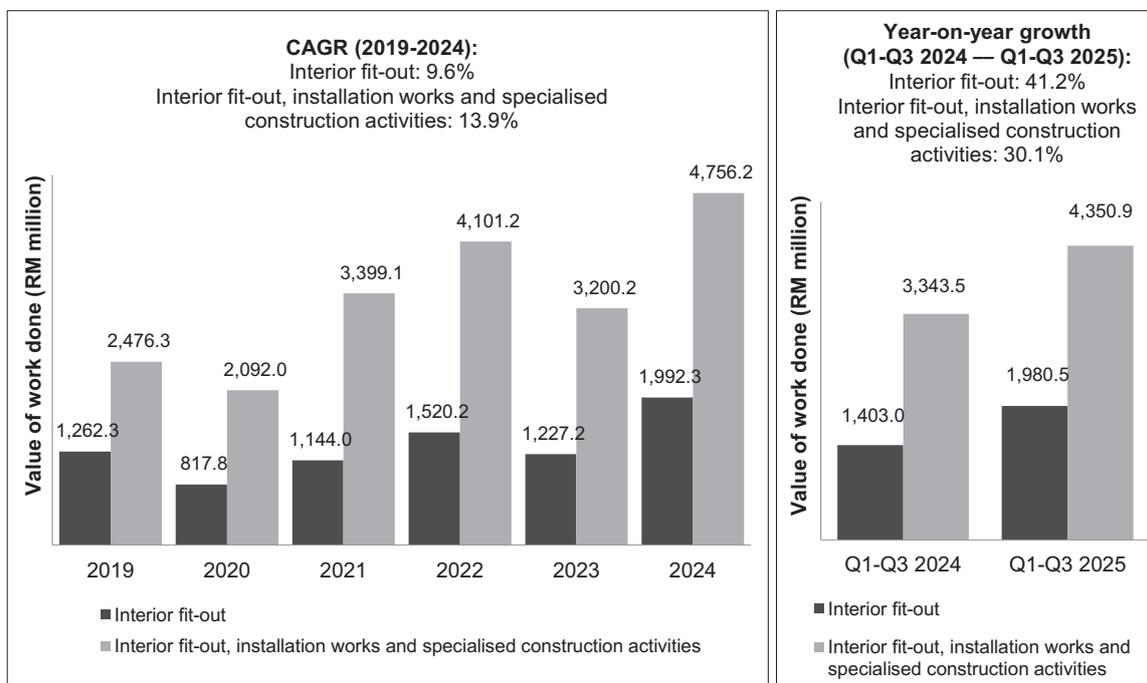

("Q3") of 2025, the interior fit-out industry in Malaysia recorded RM2.0 billion, representing a growth of 41.2% from RM1.4 billion for the corresponding period in 2024.

Moving forward, PROVIDENCE projects the interior fit-out industry in Malaysia to record RM2.3 billion in 2025 and rise to RM2.7 billion in 2027, registering a CAGR of 8.3% between 2025 and 2027. The projected growth is supported by the demand drivers elaborated in the **Demand Conditions: Key Growth Drivers** section of this IMR report.

Installation works and specialised construction activities which includes installation of elevators, escalators, automated and revolving doors, sound and/or vibration insulation in buildings or other construction projects, erection of non-self-manufactured steel elements, as well as bricklaying and stone setting, may be performed alongside interior fit-out services. The value of work done for interior fit-out, installation works and specialised construction activities grew from RM2.5 billion to RM4.8 billion between 2019 and 2024, registering a CAGR of 13.9%. Further, the value of work done for interior fit-out, installation works and specialised construction activities amounted to RM4.4 billion for the period between Q1 and Q3 in 2025, increasing by 30.1% from RM3.3 billion for the corresponding period in 2024.

## DEMAND CONDITIONS: KEY GROWTH DRIVERS

### Growth in commercial and industrial properties supports demand for interior fit-out services

Over the period between 2019 and 2024, commercial property transactions rose from RM29.0 billion to RM58.1 billion at a CAGR of 14.9%, while industrial property transactions grew from RM14.8 billion to RM27.9 billion at a CAGR of 13.5%.<sup>1</sup> Between the first half ("H1") of 2024 and H1 of 2025, the transaction values for commercial properties and industrial properties increased by 3.4% and 5.9%, respectively.<sup>1</sup> This growth is driven by a growth in value of construction works performed for commercial and industrial buildings in light of new projects, including the Tun Razak Exchange, IND-TECH 5, Northern TechValley @ BKE and Sunway Square Mall.

The interior fit-out industry's growth is supported by the growth of the property market as commercial and industrial property owners will require interior fit-out services during the setting up of new offices and operational facilities. The value of commercial and industrial property transactions is an indicator of growth for Malaysia's property development and construction industries and indicator of demand for interior fit-out services. Thus, the

### The long-term growth of end-user industries will create demand for interior fit-out services

Interior fit-out services can be catered to different types of premises in a diverse range of end-user industries. It creates a space which is both functional and aesthetically appealing, as tailored to the customer's requirements. As such, the interior fit-out industry is generally driven by the growth of its end-user industries.

In particular, Adnex Group has mainly provided interior fit-out services for premises used as corporate offices, food and beverage ("F&B") outlets and sales galleries. During the FYE 2022 to FYE 2024 and FPE 2025, the Group provided interior fit-out services to corporations operating in various industries including, amongst others, financial services, manufacturing, professional services, F&B services and pharmaceutical industries. Adnex Group also intends to expand its local customer base of corporations operating in the healthcare and private education industries.

As such, the prospects of some of the key end-user industries that Adnex Group serves, and intends to expand its reach in, are as follows:

#### (a) Financial and professional services industries

The financial services industry encompasses services offered by financial institutions in relation to management of assets, lending and investment. Meanwhile, the professional services industry refers to the provision of specialised, knowledge-based services such as legal, accounting and consulting services.

The financial services industry in Malaysia can be measured by transaction value per capita of cash in circulation, or of electronic payments such as credit cards, debit cards, and mobile and internet banking. The transaction value per capita of cash in circulation grew from RM3,079.63 in 2019 to RM4,465.28 in 2023 while the transaction value per capita of electronic payments grew from RM671,276.83 in 2019 to RM902,076.94 in 2023.<sup>2</sup> Meanwhile, the professional services industry in Malaysia, as measured by revenue generated, grew from RM168.5 billion in 2019 to RM200.2 billion in 2024, registering a CAGR of 3.5%.<sup>3</sup> The financial and professional services industry is expected to be driven by the increasing population, economic growth, technological advancements and globalisation.

Malaysia's population has been growing steadily from 32.5 million in 2019 to an estimated 34.2 million in 2025.<sup>4</sup> Simultaneously, Malaysia's economy, as measured by gross national income ("GNI"), grew from RM1.5 trillion in 2019 to RM1.9 trillion in 2024, registering a CAGR of 4.8%.<sup>5</sup> The increasing population and growing economy are expected to drive demand for financial and professional services in order to accommodate the growing clientele.

**8. IMR REPORT (Cont'd)**

Moreover, globalisation has led to increased trade and investment flows from foreign countries, thus directly driving demand for financial and professional services in Malaysia. Malaysia's total trade grew from USD445.2 billion (RM1.8 trillion<sup>6</sup>) in 2019 to USD629.0 billion (RM2.9 trillion<sup>6</sup>) in 2024, registering a CAGR of 7.2%.<sup>7</sup> Concurrently, Malaysia's approved foreign investments has increased from RM82.4 billion in 2019 to RM170.4 billion in 2024, at a CAGR of 15.6%.<sup>8</sup> Further, Malaysia's approved foreign investments amounted to RM150.8 billion for the Q1 to Q3 period in 2025, as compared with RM102.2 billion over the same period in 2024.<sup>8</sup> The increased trade and foreign investments would require cross-border financial transactions, international legal expertise as well as consultancy services. As a result, there is expected growth in demand for financial and professional services to support these international activities.

**(b) Manufacturing industry**

The manufacturing industry is a broad industry, encompassing manufacturing of food, household and consumer goods, amongst other products. As the industry grows, there will be a growing number of operational facilities. The manufacturing industry size in Malaysia, as indicated by the total manufacturing sales value, grew from RM1.4 trillion in 2019 to RM1.9 trillion in 2024.<sup>9</sup> The manufacturing industry in Malaysia recorded total sales value of RM1.8 trillion over the January to November period in 2025, increasing from RM1.7 trillion for the corresponding period in 2024.<sup>9</sup>

The growth of the manufacturing industry has been, and is expected to continue to be driven by demand for manufactured products.

**(c) F&B services industry**

The F&B services industry consists of all types of restaurants and cafes, as well as other specialty vendors such as food truck operators and kiosks. As the F&B services industry grows, there will be a growing number of F&B outlets.

The F&B services market size in Malaysia, as measured by service value, stood at RM47.2 billion in 2019. In 2020, the F&B services market size declined to RM37.2 billion as a result of the COVID-19 pandemic. However, it has been growing steadily at a CAGR of 6.1% since then, reaching RM47.1 billion in 2024.<sup>10</sup> The growth of F&B services has been, and is expected to continue to be largely driven by urbanisation and rising income levels. This is because urban residents generally prefer to dine out due to the convenience and accessibility. In 2024, Malaysia's urbanisation rate stood at 79.2%<sup>11</sup>, while GNI per capita had grown from RM45,298 in 2019 to RM54,894 in 2024, registering a CAGR of 3.9%.<sup>5</sup>

**(d) Pharmaceutical industry**

The pharmaceutical industry encompasses the research, development, manufacturing and distribution of medications, vaccines and other therapeutic products. As the pharmaceutical industry grows, there will be a growing number of pharmaceutical facilities and research centres to accommodate changing demands. The pharmaceutical industry size, as indicated by the sales value of pharmaceutical products in Malaysia grew from RM6.7 billion in 2019 to RM11.3 billion in 2024.<sup>12</sup> By November 2025, the sales value of pharmaceutical products in Malaysia had reached RM11.3 billion, increasing by 8.7% as compared to RM10.4 billion in the corresponding period in 2024.<sup>12</sup>

The growth of the pharmaceutical industry has been, and is expected to continue to be largely driven by Malaysia's growing ageing population and increasing healthcare expenditure. Malaysia's ageing population (comprising persons above 60 years old) has been rising from 8.8% of total population (2.7 million persons) in 2014 to an estimated 12.0% of total population (4.1 million persons) in 2025,<sup>13</sup> thus signifying a higher prevalence of age-related and chronic diseases. The shift in demographics would result in higher demand for pharmaceutical products.

Furthermore, as mentioned above, healthcare expenditure has been on an uptrend, as indicated by the growth of healthcare expenditure illustrated below. Rising healthcare expenditure would drive the pharmaceutical industry to develop and manufacture medications, vaccines and other therapeutic products that cater to evolving healthcare needs and an ageing population. As such, this will result in

increased demand for pharmaceutical products which will drive the growth of the pharmaceutical industry.

### (e) Healthcare industry

The healthcare industry is a broad sector which revolves around the provision of medical services and medicine for the treatment of diseases and illnesses.

The healthcare industry, as measured by healthcare expenditure stood at RM64.0 billion in 2019 and grew to RM84.2 billion in 2023.<sup>14</sup> The healthcare industry in Malaysia is expected to be driven by the growth in population, increased life expectancy and growing ageing population, as well as rise in medical tourism.

As depicted above, the population of Malaysia has been on an uptrend. Concurrently, the disposable income, as measured by GNI per capita grew from RM45,298 in 2019 to RM54,894 in 2024, registering a CAGR of 3.9%.<sup>5</sup> The increased income will contribute to the increased ability to spend on healthcare services to enhance longevity and health. Thus, there will be increased demand for the development of healthcare facilities such as hospitals, clinics, ambulatory care centres, nursing homes and hospices.

Life expectancy in Malaysia has improved over the past decade, increasing from 74.5 years in 2014 to an estimated 75.3 years in 2025.<sup>13</sup> During the same period, the ageing population has increased from 2.7 million to an estimated 4.1 million.<sup>13</sup> As life expectancy and ageing population increase, the prevalence of age-related health conditions and chronic diseases is expected to increase in tandem, therefore requiring frequent and specialised medical care, or long-term medical treatments.

In addition, Malaysia has grown to be a prominent destination for medical tourism. In 2024, Malaysia attracted over 1.6 million international healthcare tourists, generating approximately RM2.7 billion in revenue.<sup>15</sup> Malaysia has also received international recognition, including the “Medical Travel Destination of the Year” by the International Medical Travel Journal Medical Travel Awards 2020. The Malaysia Year of Medical Tourism 2026 was launched by Malaysia Healthcare Travel Council to enhance Malaysia’s competitiveness in the global medical tourism sector. The strategic goal of the initiative is to attract more international health travellers, enhance global visibility of Malaysia’s medical tourism capabilities through campaigns, strengthen healthcare infrastructure and services, develop strong industry partnerships, provide seamless patient care journeys, and highlight Malaysia’s hospitality.

According to the Malaysia Healthcare Travel Council, the most sought-after treatments in Malaysia include cardiology, fertility, oncology, orthopaedics, dental and aesthetics. Further, under the Healthcare Travel Industry Blueprint 2021 – 2025, Malaysia is expected to solidify its position as the Fertility Hub of Asia, Cardiology Hub of Asia and Cancer Care Centre of Excellence.

### (f) Private education industry

The private education industry in Malaysia is a diverse sector encompassing non-governmental institutions that provide self-funded education services, including pre-primary education, primary education, secondary education and higher education. As the demand for specialised skills, global exposure and personalised syllabus grows, demand for private education is expected to grow in tandem which will result in expansion of learning facilities and development of new facilities to accommodate the rising demand. The number of establishments operating in the private education services sector has been on an uptrend, increasing from 11,722 establishments in 2015 to 18,242 establishments in 2022, registering CAGR of 6.5%.<sup>16</sup> Concurrently, the private education industry in Malaysia has demonstrated steady growth, as measured by revenue, rising from RM14.6 billion in 2015 to RM24.2 billion in 2024, registering a CAGR of 5.8%.<sup>17</sup> The private education industry in Malaysia, in terms of revenue, reached RM19.5 billion for the Q1 to Q3 period in 2025, as compared to RM17.9 billion for the corresponding period in 2024.<sup>17</sup>

The growth of the private education industry has been, and is expected to continue to be, supported by Malaysia’s growing economy. Malaysia is a growing economy, with a rising disposable income, as measured by GNI per capita. GNI per capita grew from RM45,298 in 2019 to RM54,894 in 2024, registering a CAGR of 3.9%.<sup>5</sup> The rise in disposable income signifies a more affluent population with higher spending power, thus enabling them to invest more into their children’s education.

## 8. IMR REPORT (Cont'd)

Furthermore, Malaysia aims to attract 250,000 international students by 2025,<sup>18</sup> which is expected to contribute to demand for private education in Malaysia. The Government of Malaysia has also recently launched the National Education Plan 2026-2035, a blueprint aimed at reforming the country's education system throughout all levels, as an effort to improve Malaysia's status as a regional hub for education. The blueprint comprises various initiatives including improving access to and quality of education, strengthening infrastructure, promoting proficiency in multiple languages, placing greater emphasis on artificial intelligence (AI), science, technology, engineering, and mathematics (STEM), as well as revising preschool and year one age requirements. Additionally, sustained and strategic investments play a pivotal role in enhancing the quality and capacity of Malaysia's private education industry. According to MIDA, Malaysia's total approved investment for education services in 2024 was RM613.5 million for 96 projects.<sup>19</sup> This indicates the reputation and appeal of Malaysia as an education hub in the region.

### Growth in investments will support demand for interior fit-out services

The growth in investments will result in local and foreign companies setting up their offices and operating facilities in Malaysia. As these companies will require premises to carry out their business operations, this would result in an increase in demand for interior fit-out services in Malaysia to enhance the appeal, functionality and comfort of new offices or operating facilities.

Malaysia recorded a total of RM378.5 billion worth of approved investments in the services, manufacturing and primary sectors in 2024 across 6,700 projects. From the total investments approved, foreign investments accounted for RM170.4 billion or 45.0%, while domestic investments accounted for RM208.1 billion or 55.0%. The services sector accounted for the largest share of the total investments in 2024, amounting to RM252.7 billion (66.8%), followed by the manufacturing sector with RM120.5 billion (31.8%) and the primary sector with RM5.3 billion (1.4%). In 2024, foreign investments comprised 32.1%, 73.8% and 9.4% of approved investments in the services, manufacturing and primary sectors respectively.<sup>8</sup>

Between January and September of 2025, the approved foreign investments in Malaysia amounted to RM285.2 billion, comprising 4,874 approved projects.<sup>8</sup> The services sector accounted for 65.9% (RM187.9 billion) of total approved investment, followed by the manufacturing sector at 32.9% (RM93.8 billion) and the primary sector at 1.2% (RM3.5 billion).<sup>8</sup>

Malaysia aims to attract quality foreign and domestic investments to drive economic growth towards becoming a high-income nation. Under Budget 2025, the Government of Malaysia has allocated RM1.0 billion towards the New Investment Incentive Framework which aims to attract high value-added activities such as integrated circuit design services in the electrical and electronics industry. This includes offering incentives to attract investments in technologically-advanced areas, thereby creating high-value products and services as well as high-paying employment opportunities. The Government of Malaysia launched the New Industrial Master Plan 2030 which aims to increase foreign and domestic investments across all states from an average of 13.0% of a state's gross domestic product ("GDP") to 25.0% of a state's GDP by 2030.<sup>20</sup>

## INDUSTRY DYNAMICS

### Dependency on imports and foreign labour

The interior fit-out industry in Malaysia has a certain degree of dependency on the imports of building materials such as steel, copper, tiles and sanitaryware. While interior fit-out building materials are subject to certain levels of imports, interior fit-out services are typically provided by local interior fit-out service providers. Industry players in the interior fit-out industry also rely on foreign labour to carry out installation works at the project site.

### Industry challenges

Interior fit-out activities are exposed to risks such as project delays, poor quality of work and on-site accidents that have consequences on the industry and its stakeholders. These risks may lead to customer and/or public complaints, as well as loss of reputation and revenue. Project delays affect the ability of industry players to complete projects on time which may result in financial shortages or budget overruns, and may cause a loss of opportunity if resources have been committed to a delayed project.

The oversupply of properties and economic downturn may also lead to a slowdown in construction and property development activities, thereby affecting demand for interior fit-out services.

Interior fit-out service providers require high initial capital for operational needs, including prepayments and deposits for subcontractors, suppliers and manufacturers. Failure to make timely payments may delay project schedules and affect the interior fit-out service provider's credibility. Moreover, interior fit-out service providers

## 8. IMR REPORT (Cont'd)

may also require large capital for the issuance of performance bonds to customers. New entrants without sufficient cash flow may therefore encounter difficulties in sustaining their operations. The requirement for high initial capital outlay is a high barrier to entry for new entrants.

When appointing interior fit-out service providers, customers seek industry players with experience and track record. An interior fit-out service provider with a good reputation and proven track record often stands out against other industry players, increasing the chance of securing a project. This will act as a high barrier for new market entrants as it takes time to build a portfolio of successful projects.

### RELEVANT INDUSTRY LAWS AND REGULATIONS

#### Construction Industry Development Board (“CIDB”) Act 1994

The CIDB Act 1994 focuses on developing and regulating Malaysia’s construction industry. It is primarily aimed at contractors, developers and other stakeholders within the industry. CIDB aims to promote contractor registration and grading, maintain quality and safety standards, provide training and accreditation as well as facilitate research and development. The goal of CIDB is to enhance the quality, efficiency and competitiveness of the Malaysian construction industry, thus ensuring sustainable growth and improved public safety.

#### Occupational Safety and Health Act 1994

The Occupational Safety and Health Act 1994 is designed to safeguard workplace safety and health including the welfare of all personnel at the workplace. The Act is broadly applicable to all employers and employees across various industries. Under the Act, employers are mandated to provide safe environments, risk assessments and safety committees, backed by inspections, while employees are required to cooperate with the relevant safety measures, thus enforcing safety, health and welfare measures in the workplace. The purpose of the Act is to prevent accidents and illnesses, while fostering a healthy work culture.

### COMPETITIVE LANDSCAPE

In Malaysia, interior fit-out services may be provided by interior fit-out service providers, interior designers and renovation contractors. The range of services offered by interior fit-out service providers differ depending on their capabilities, with some industry players being able to offer design planning, project planning and scheduling, identifying, sourcing and procuring materials, supplies and furniture, cost management, liaising with various parties for documentation to be submitted to relevant local authorities and building management, engagement and appointment of professionals (including M&E consultant engineer, civil and structural consultant engineer and/or architect) and subcontractors, as well as coordinating and managing on-site fit-out activities performed by various subcontractors, implementation of quality control and safety measures, and managing and monitoring rectification and repair of defects during the defect liability period while others are able to carry out manufacturing of carpentry/ joinery parts, wooden furniture and fixtures, installation works and maintenance services. As at 28 January 2026, there were 136,964 contractors registered with CIDB Malaysia.

PROVIDENCE projects the interior fit-out industry in Malaysia to record RM2.3 billion in 2025 and rise to RM2.7 billion in 2027 at a CAGR of 8.3%.

The growth of the interior fit-out industry in Malaysia will be supported by:

- growth in commercial and industrial properties, where an increase in commercial and industrial property transactions will support demand for interior fit-out services as business owners require such services during the renovation or construction of offices and operational facilities; and
- foreign and domestic investment growth which will result in companies setting up their offices and operating facilities in the country, consequently supporting demand for interior fit-out services to enhance the appeal, functionality, and comfort of new offices and operating facilities.

**8. IMR REPORT (Cont'd)**

Adnex Group is also well-positioned to benefit from the long-term growth of end-user industries including the financial and professional services, manufacturing, F&B services and pharmaceutical industries as the Group's customers are primarily from these industries during the FYE 2022 to FYE 2024 and FPE 2025. Further, Adnex Group can also benefit from the growth of the healthcare and private education industries, as it intends to expand its customer base of corporations operating in these industries in the future. Thus, the continued growth of these industries is expected to drive demand for Adnex Group's interior fit-out services, as new premises including corporate offices, F&B outlets, sales galleries, healthcare and educational facilities will require interior fit-out services.

## 9. RISK FACTORS

**NOTWITHSTANDING THE PROSPECTS OF OUR GROUP AS OUTLINED IN THIS PROSPECTUS, YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS THAT MAY HAVE A SIGNIFICANT IMPACT ON OUR FUTURE PERFORMANCE, IN ADDITION TO ALL OTHER RELEVANT INFORMATION CONTAINED ELSEWHERE IN THIS PROSPECTUS, BEFORE MAKING AN APPLICATION FOR OUR IPO SHARES.**

### 9.1 RISKS RELATING TO OUR BUSINESS OPERATIONS

#### 9.1.1 Our business and financial performance are dependent on our ability to secure new projects to replenish our order book

The provision of our interior fit-out services are typically project-based, with revenue recognised progressively from project execution through to the completion of works. As such, our financial performance, including revenue, profitability and operating cash flow, is subject to fluctuations depending on the number, value and completion stage of the projects undertaken in any given financial year or period. The duration of our interior fit-out projects differs, depending on our customers' requirements, scope of works and project timeline, generally ranges between 2 to 6 months.

As at the LPD, we have 15 ongoing interior fit-out projects with a total contract value of RM50.42 million.

In order to sustain our business operations and financial performance, we would have to continuously secure new interior fit-out projects. As our projects are typically awarded through tender process, we are required to actively participate in tender exercises and submit proposals for each potential project. However, there is no assurance that we will be successful in every tender or in securing new projects on a continuous basis in the future. If we are unable to consistently replenish our order book with new projects, it may materially and adversely affect our revenue, profitability and future prospects.

While our Group continuously seeks to maintain and strengthen existing business relationships, as well as establish relationships with new customers to expand our network, any adverse economic conditions or a slowdown in the industries in which our customers operate may negatively affect our ability to secure new projects. This may have a material adverse effect on our Group's business operations and financial performance.

#### 9.1.2 We are dependent on the quality of services of our subcontractors and materials from our suppliers

We engage subcontractors to carry out on-site fit-out activities for all of our interior fit-out projects. The scope of works typically includes demolition and preparatory works for new installations, partition works, ceiling, tiling, and flooring works, MEP works (including wiring, cabling, and lighting installation), carpentry and fixture installation, painting and plastering works, sanitaryware, fixtures and fittings installation, fire safety system installation, as well as air-conditioning piping installation. Our subcontractors are also responsible for carrying out rectification works during the DLP by way of back-to-back arrangement to make good defects, at their own cost. In addition, we also procure materials from suppliers in accordance with our customers' specifications. As such, we are exposed to risks associated with the performance, timely delivery and quality of works or materials provided by our subcontractors or suppliers.

During the Financial Years and Period Under Review, subcontractors' costs accounted for 78.68% (RM19.00 million), 85.01% (RM30.74 million), 74.61% (RM26.02 million) and 77.55% (RM39.26 million) of our Group's total cost of sales for the FYE 2022, FYE 2023, FYE 2024 and FPE 2025, respectively, while material purchases accounted for 20.94% (RM5.06 million), 14.33% (RM5.18 million), 24.66% (RM8.60 million) and 21.61% (RM10.94 million) of our Group's total cost of sales for the FYE 2022, FYE 2023, FYE 2024 and FPE 2025, respectively.

## 9. RISK FACTORS (Cont'd)

Prior to onboarding the subcontractors or suppliers into our network of suppliers, we will conduct a comprehensive background check and evaluation on the subcontractors or suppliers, including reviewing their company profile, past performance and industry reputation, as well as quality management certifications and product samples to ensure the quality of services or products provided. Before engaging any subcontractors or procurement of materials, we also assess their pricing and availability to ensure the competitiveness and timeliness completion of works or products delivery. Furthermore, we place emphasis on continuous monitoring of our subcontractors throughout the entire fit-out process to monitor the progress and to promptly rectify any issue to minimise potential cost deviations and ensure adherence to project timeline.

In the event that our subcontractors fail to deliver the work in accordance with the project schedule and quality requirements, it may result in project delays, additional costs or potential claims from our customers. It may also affect our reputation, which could subsequently impact our ability to secure new projects from existing or new customers in the future.

For the Financial Years and Period Under Review and up to the LPD, we have not encountered any delays in completing our projects that have materially and adversely affect our financial performance, or received complaints from our customers relating to the work completed by our subcontractors, nor have we received any materials which negatively affected the quality of services. Nevertheless, there can be no assurance that we will not experience any claims or complaints from our customers relating to unsatisfactory, late or non-performance by our subcontractors or suppliers in the future.

### 9.1.3 Our business is dependent on certain registrations, licences and permits

As an interior fit-out service provider, we are required to obtain and hold valid registrations and/or licences with authorities such as CIDB. Please refer to Section 6.8 of this Prospectus for further details of the major licences, permits and approvals.

We must comply with any regulations, terms and conditions imposed by the relevant authorities to retain such registrations and/or licences. This includes notifying and submitting to CIDB information and documents relating to construction works secured, whether new or otherwise, including changes in the value of the interior fit-out works, as well as making levy payments. Failure to comply with the regulations, terms and conditions imposed by the relevant authorities may result in the imposition of fines and penalties, suspension, cancellation or non-renewal of our registrations and/or licences. The failure to keep or renew promptly the requisite registrations and/or licences could result in the suspension or restrictions in our business operations, including our ability to participate in tenders and to carry out interior fit-out services which would adversely affect our business operations and financial performance.

As at the LPD, we have obtained all required registrations, licences and permits to carry out our business and we have not encountered any suspension or non-renewal of registrations and/or licences.

### 9.1.4 Any breaches of HSE laws and regulations may result in penalties including the suspension of our operations

We must comply with the relevant HSE laws and regulations at the worksites. These HSE laws and regulations are concerned with, amongst others, the occupational health and safety of our employees and subcontractors as they perform their work, and the effect that our work may have on the environment as well as occupants and visitors of the buildings.

Failure to comply with the relevant HSE laws and regulations, and events such as worksite accidents that injure or harm our employees, subcontractors and people within the premises may lead to the relevant authorities taking action against us, such as suspending or restricting our operations at the affected worksite and/or taking administrative or legal action against us.

---

**9. RISK FACTORS (Cont'd)**

---

During the Financial Years and Period Under Review and up to the LPD, there were no workplace accidents which were caused by our Group and our subcontractors, and we have not made any insurance claims in relation to workplace injuries or accidents, or workmen's compensation claim. There have been no breaches or failure to comply with the relevant HSE laws and regulations by our Group and our subcontractors that resulted in any of the negative consequences described above. However, there can be no assurance that our business operations will not be adversely affected by workplace accidents, breaches or non-compliance with the relevant HSE laws and regulations in the future.

**9.1.5 We face the risk of cost overruns for our interior fit-out projects**

Upon receiving a tender invitation from a prospective customer, we will conduct a preliminary assessment on the project, which includes evaluating the requirements, timeline, feasibility of the project and the scope of work. In preparing our tender submission, we estimate the project costs and budget based on quotations obtained from our suppliers and subcontractors, as well as our internal cost estimations.

However, the profitability of our projects, and eventually our Group's financial performance, may be impacted by unforeseen increases in project costs that arise after the submission of our tender or proposal up until project completion. These may include variation orders, as well as unfavourable fluctuations in the price of materials and subcontractor costs. If we are unable to pass on these cost increases to our customers, such events may result in cost overruns, which could adversely affect our profit margins and overall financial results. Any prolonged delay in the project execution may require us to extend the engagement period with our subcontractors and may further contribute to cost overruns.

During the Financial Years and Period Under Review and up to the LPD, we have not experienced any cost overruns that have materially and adversely affect our financial performance. However, there is no guarantee that we will not encounter such circumstances in the future.

**9.1.6 We are susceptible to the risk of defect liability claims and delay or non-recoverability in retention sums**

We are liable for rectification of defects during the DLP, which is typically 12 months from the issuance of CPC. During the DLP, we are obliged to repair, rectify and make good any defects arising from the works carried out by our subcontractors. The relevant subcontractor will perform the repair and rectifications and bear the costs of such rectification works.

However, there is no assurance that we may successfully seek recourse from our subcontractors towards the claim for the repair and rectifications works that should be borne by them during the DLP. In the event that we fail to seek such recourse, we will be liable for the repair and rectification costs which will result in an increase in our overall project costs, and if such defects are material, our business operations and financial performance will be adversely affected. Furthermore, claims during the DLP may also lead to a delay in the collection of the retention sums from our customers, or its non-recoverability.

While we have not encountered any defect liability claims or non-collection of retention sums that have adversely affected our financial performance for the Financial Years and Period Under Review and up to the LPD, there is no guarantee that such claims will not arise in the future. A substantial claim, or substantial number of claims, in relation to defective works could have a material and adverse effect on our business operations, operating results and financial performance.

---

**9. RISK FACTORS (Cont'd)**

---

**9.1.7 Our business is dependent on our Executive Directors and Key Senior Management**

Our Group is reliant on the leadership capabilities and the experiences of our Executive Directors and Key Senior Management who play a significant role in our operations, as well as the development and implementation of our business strategies. Our Non-Independent Executive Director / Managing Director, Kan Wai Chun, has approximately 26 years of experience gained through his career in the interior fit-out industry, while our Non-Independent Executive Director, Kan Wai Peng, has approximately 35 years of industry experience. Our Executive Directors are supported by our Key Senior Management who possess extensive knowledge and experience in their respective fields.

Further details on the experience of our Directors and Key Senior Management team are set out in Sections 5.1.2 and 5.4.2 of this Prospectus.

Our continued success and growth in the future will depend on our ability to retain and attract skilled and experience employees. The loss of services from any of our Executive Directors or Key Senior Management without a suitable or prompt replacement, may have a negative impact on our business operations and financial performance.

**9.1.8 There is no assurance that we will be able to successfully execute our business strategies and future plans**

As disclosed in Section 7.18 of this Prospectus, our Group intends to expand our business locally and internationally, as well as upgrade our IT systems and infrastructure to enhance operational efficiency.

While we believe that these business strategies and future plans will be beneficial to our overall performance, the expected benefits may not materialise immediately, or at all, and may take a longer time to materialise than anticipated. This may, in turn, limit or reduce our profitability in the short term.

In implementing these future plans, we may be required to incur additional operational and capital expenditures. If we are unable to generate sufficient revenue through the securing of new projects to offset these additional costs, our profit margins and operating cash flow may be adversely affected.

There is also no guarantee that we will be able to successfully execute our business strategies and future plans, nor can we assure that we will be able to anticipate all business and operational risks that may arise. Any failure or delay in managing and implementing our business strategies and future plans may have a negative impact on our future business prospects and financial performance.

**9.1.9 Our insurance coverage may not be adequate to cover all losses or liabilities**

We are exposed to the risks of losses or liabilities arising from unforeseen events that may occur during our operational activities. As at the LPD, we have in place, among others, burglary, fire and public liability insurance policies in respect of our corporate office. In addition, we also maintain insurance policies related to our on-going interior fit-out projects, including but not limited to subcontractors' all risk insurance which covers us against damages incurred during the insured contract period, as well as third-party liability in the event of accidental bodily injury and accidental loss of or damage to property belonging to a third-party, workmen's compensation insurance for each of our interior fit-out projects.

Notwithstanding that, the insurance coverage taken by our Group does not cover certain types of losses that are not insurable or not economically insurable such as wars, riots, acts of terrorism, acts of God and outbreak of diseases.

---

**9. RISK FACTORS (Cont'd)**

---

Additionally, our insurance may not be adequate to cover the losses, damages or liabilities that may arise in the course of our business operations. Any losses, damages or liabilities in excess of our insured limits or in areas for which we are not fully insured may adversely affect our Group's business, financial performance or results of operations.

**9.2 RISKS RELATING TO OUR INDUSTRY****9.2.1 We are subject to risks inherent in the interior fit-out industry and property development industry**

We are principally involved in the provision of interior fit-out services, particularly for commercial and industrial properties. As such, our business is subject to risks relating to the interior fit-out industry. Any challenges, downturns and/or decline in the demand for interior fit-out services, specifically for commercial and industrial properties, may negatively impact our business operations, financial performance and prospects.

As the interior fit-out industry is part of the value chain of the property development industry, any downturn in the property development industry may also adversely affect our Group. Such a downturn is generally characterised by a reduction in the number of property development projects, including commercial and industrial properties. This may indicate a decline in the demand for interior fit-out services, particularly for the setting up of new offices and operational facilities by commercial and industrial property owners and/or tenants. The property development industry may be affected by a number of factors such as general economic conditions, changes in Government initiatives and policies, as well as changes in lending policies and practices by financial institutions. The occurrence of any of such events is beyond our control, and there can be no assurance that we will not be affected by these events.

During the Financial Years and Period Under Review, our Group has not been engaged to provide interior fit-out services for any property development projects. However, there is no assurance that any downturn in the property development industry in the future which may lead to lower demand of interior fit-out services will not materially affect our business operations and financial performance.

**9.2.2 We face competition from other industry players**

We operate in a highly competitive industry where we face competition from other industry players who offer similar services as us. Key factors that affect our competitiveness include pricing, service quality, availability of manpower and financial resources, as well as timely delivery. Some of our competitors may have a longer operating history and greater financial resources as compared to us.

Whilst we compete based on the quality of our services, there can be no assurance that we will be able to compete effectively with our new or existing competitors. In the event where we fail to compete effectively or maintain our competitiveness in the market, our business operations, financial performance and prospects may be adversely affected.

**9.2.3 We are subject to economic, social, political, regulatory and pandemic risks**

Any changes in the political, social, economic, and regulatory conditions in Malaysia could have a negative impact on our business operations and financial performance. These events could include, but not limited to, changes in political leaderships, occurrence of civil war or disorder, changes in import tariffs and related duties, as well as modification to the conditions governing licences, registrations and permits to conduct business. Similarly, any global or regional economic downturn would also affect overall business conditions, consumer confidence and sentiments, as well as investments, which would subsequently affect the demand of our services.

## **9. RISK FACTORS (Cont'd)**

Recently, the US and China government had imposed high tariffs on goods imported from the respective country. The sudden imposition of tariffs has led to economy uncertainties globally and volatility in the market. While the new tariffs do not have a direct impact on our Group's business operations due to the nature of our business, it may have an impact on our customer's business, which may in turn lead to a lower demand for our services due to a reduction in their budget for interior-fit out works.

We are also exposed to the risk of local epidemics or pandemics where we may face business interruptions including, among others, temporary suspension of our business operations. While our Group experienced interruptions to our business operations in 2020 and 2021 during the peak of the COVID-19 pandemic, our business operations has recovered since 2022 as evident by our improving financial performance for the Financial Years and Period Under Review.

There can be no assurance that any adverse political, social, economic, and regulatory developments, or outbreaks of diseases in the future, which are beyond our control, will not materially affect our business operations and financial performance.

### **9.3 RISKS RELATING TO INVESTMENT IN OUR SHARES**

#### **9.3.1 There has been no prior market for our Shares**

Prior to our Listing, there has been no public market for our Shares. Hence, there is no assurance that upon our Listing, an active market for our Shares will develop, or if developed, that such market can be sustained. Our IPO Price was determined after taking into consideration a number of factors, including but not limited to our financial and operating history, our competitive strengths, our future plans and strategies, as well as the industry overview as detailed in Sections 7 and 8 of this Prospectus. There is also no assurance as to the liquidity of any market that may develop for our Shares, the ability of holders to sell our Shares or the price at which holders would be able to sell our Shares.

There can be no assurance that the IPO Price will correspond to the price at which our Shares will trade on the ACE Market upon our Listing and that the market price of our Shares will not decline below our IPO Price.

#### **9.3.2 The trading price and volume of our Shares following our Listing may be volatile**

After our Listing, the trading price and volume of our Shares could be subject to fluctuations in response to various factors, some of which are not within our control and may be unrelated or disproportionate to our operating results. These factors may include the followings:

- (i) material variation in our financial results and operations;
- (ii) success or failure of our management in implementing future plans, business and growth strategies;
- (iii) changes in securities analysts' recommendations, perceptions or estimates of our financial performance;
- (iv) changes in conditions affecting the industry, the general economic conditions or stock market sentiments or other related events or factors;
- (v) changes in market valuation and share prices of companies with similar businesses to our Group that may be listed on Bursa Securities;
- (vi) additions or departures of key personnel;
- (vii) fluctuations in stock market prices and volumes;

## 9. RISK FACTORS (Cont'd)

- (viii) involvement in claims, litigation, arbitration or other form of dispute resolution; and/or
- (ix) changes in government policy, legislation or regulation.

In addition, the performance of Bursa Securities is very much dependent on external factors such as the performance of the regional and world bourses and the inflow or outflow of foreign funds. Sentiments are also largely driven by internal factors such as economic and political conditions of the country as well as the growth potential of various sectors of the economy. These factors invariably contribute to the volatility of trading volume witnessed on Bursa Securities, thus adding risks to the market price of our Shares.

### 9.3.3 Our Promoters will be able to exert significant influence over our Company

Upon our Listing, our Promoters will collectively hold 370,000,000 Shares, which represents 74.00% of our enlarged issued share capital upon Listing. As a result, our Promoters will be able to, in the foreseeable future, effectively control the business direction and management of our Group, including the election of Directors, the timing and payment of dividends as well as having majority voting control over our Company and as such, will likely influence the outcome of matters requiring the vote of our shareholders, unless they are required to abstain from voting either by law and/or by the relevant guidelines or regulations. There can be no assurance that the interests of our Promoters will be aligned with those of our other shareholders.

### 9.3.4 We may not be able to declare dividends to our shareholders

Our Group's ability to pay dividends to our shareholders is dependent on, amongst others, our future financial performance, cash flow positions, capital requirements, compliance with bank covenants as well as the implementation of our business plans. Our ability to pay dividends to our shareholders may be affected should these factors deteriorate and as such, there can be no assurance that we will be able to pay dividends to our shareholders. In addition, dividends are not guaranteed and our Board, at its discretion, may decide not to pay dividends at any time and for any reasons. If we do not pay our shareholders dividends, or if the dividends paid are lower compared to levels anticipated by our investors, the market price of our Shares may be negatively affected, reducing the value of any investment in our Shares.

### 9.3.5 Our Listing may be potentially delayed or aborted

Our Listing may be potentially delayed or aborted should any of the following events occur:

- (i) we are unable to meet the public shareholding spread requirements under the Listing Requirements, where at least 25.00% of our issued share capital for which listing is sought must be held by a minimum number of 200 public shareholders each holding not less than 100 Shares at the point of our Listing;
- (ii) our Sole Underwriter exercising its rights under the Underwriting Agreement to discharge itself from its obligation therein; or
- (iii) revocation of approvals from relevant authorities for our Listing for whatever reason.

Where prior to the issuance and allotment of our IPO Shares:

- (i) the SC issues a stop order pursuant to Section 245(1) of the CMSA, the applications shall be deemed to be withdrawn and cancelled and our Company and the Selling Shareholders shall repay all monies paid in respect of the applications for our IPO Shares within 14 days of the stop order, failing which the Company and the Selling Shareholders shall be liable to return such monies with interest at the rate of 10% per annum or at such other rate as may be specified by the SC pursuant to Section 245(7)(a) of the CMSA; or

---

**9. RISK FACTORS (Cont'd)**

---

- (ii) our Listing is aborted, investors will not receive any of our IPO Shares, all monies paid in respect of all applications for our IPO Shares will be refunded free of interest.

Where subsequent to the issuance and allotment of our IPO Shares:

- (i) the SC issues a stop order pursuant to Section 245(1) of the CMSA, any issue of our IPO Shares shall be deemed to be void and all monies received from the Applicants shall be forthwith repaid and if any such money is not repaid within 14 days of the date of service of the stop order, the Company and the Selling Shareholders shall be liable to return such monies with interest at the rate of 10.00% per annum or at such other rate as may be specified by the SC pursuant to Section 245(7)(b) of the CMSA; or
- (ii) our Listing is aborted other than pursuant to a stop order by the SC, the return of monies to our shareholders could only be achieved by way of cancellation of share capital as provided under the Act and its related rules. Such cancellation can be implemented by the sanction of our shareholders by special resolution in a general meeting and supported by either:
  - (a) consent of our creditors (unless dispensation with such consent has been granted by the High Court of Malaya) and the confirmation of the High Court of Malaya, in which case there can be no assurance that such monies can be recovered within a short period of time or at all under such circumstances; or
  - (b) solvency statement from our Directors.

## 10. RELATED PARTY TRANSACTIONS

Pursuant to the Listing Requirements, subject to certain exemptions, a “related party transaction” is a transaction entered into by a listed issuer or its subsidiary, which involves the interest, direct or indirect, of a related party. A “related party” is defined as a director, major shareholder or person connected with such director or major shareholder (including a director or major shareholder within the preceding 6 months before the transaction was entered into). “Major shareholder” means a shareholder with a shareholding of 10% or more (or 5% or more where such person is the largest shareholder in the company) of all the voting shares in the company.

### 10.1 RELATED PARTY TRANSACTIONS

**10. RELATED PARTY TRANSACTIONS (Cont'd)**

- (c) AISSB had entered into the following tenancy agreements with AES Asia for the rental of office premises stated above:
- (i) tenancy agreement dated 1 May 2021 which has a tenure of 5 years from 1 May 2021 to 30 April 2026 at a monthly rental rate of RM5,000.00 with an option to renew for further 2 years. Nevertheless, the rental was reduced to RM3,500 per month effective 1 May 2021 as a special deduction due to COVID-19. The tenancy agreement was terminated vide a termination letter dated 29 February 2024 as the parties entered into a new tenancy agreement to revise the rental rate based on prevailing market rate. The rental rate for the period from 1 January 2022 to 29 February 2024 was not at arm's length as the rate was based on negotiated terms and not at the market rate; and
  - (ii) tenancy agreement dated 1 March 2024 supplemented by a letter of agreement dated 27 March 2025. The tenancy has a tenure of 3 years at a monthly rental rate of RM14,115.20 (from 1 March 2024 to 28 February 2026) and RM15,398.40 (from 1 March 2026 to 28 February 2027) and utility fee at RM5,500.00 per month, with an option to renew for further 3 years. The tenancy agreement will be terminated if the rent remains unpaid to AES Asia for 14 days after becoming payable, or if AISSB does not perform its covenants under the tenancy agreement, or is wound up, or if AISSB enters into arrangement or composition with its creditors. The rental of office premises from AES Asia is a recurrent transaction and will subsist after our Listing.
- The utility fee was not at arm's length as the fee which consists of electricity, water, internet, cleaning fee and parking fee was charged based on an estimated lump sum instead of actual usage. Such transactions have been discontinued effective 1 June 2025 vide a termination letter dated 9 May 2025.
- (d) Management fee consists of utility fee such as electricity, water, internet and cleaning fee. The management fee for the period from 1 January 2022 to 29 February 2024 was not at arm's length as the fee was charged based on negotiated terms. The Group had ceased such transaction since 1 March 2024.
  - (e) AES Asia is principally engaged in the business of letting of properties. The disposal of 50.00% equity interest in AES Asia was undertaken to allow AISSB to focus and allocate resources to its core operations.   - (f) JCC Trading has been terminated as sole proprietorship on 20 February 2024.
  - (g) Wong Lee Yan and Tee Chai Ken were directors and major shareholders of AES ID, holding 45.00% and 25.00% shareholdings respectively. **10. RELATED PARTY TRANSACTIONS (Cont'd)**

---

**10.3 MONITORING AND OVERSIGHT OF RELATED PARTY TRANSACTIONS**

Upon our Listing, our ARMC will review the terms of all related party transactions (including any recurrent related party transactions) to ensure that they are negotiated and agreed upon in the best interest of our Company on an arm's length basis, are in the ordinary course of business, not more favourable to the related party than those generally available to the public, and are not to the detriment to the interest of our Company's minority shareholders. Any such review will be reported to our Board for its further deliberation. In the event that there are any proposed related party transactions that involve the direct or indirect interest of our Directors, our interested Director(s) shall disclose to our Board the nature and extent of their interest, including all matters in relation to the proposed related party transactions that they are aware or should reasonably be aware of, which is not in our best interest. Our interested Director(s) shall also abstain from any ARMC and/or our Board's deliberations and voting on the relevant resolution(s) in respect of such proposed related party transactions.

Further, we will be required to seek our shareholders' approval each time we enter into material related party transactions in accordance with the Listing Requirements. However, if the related party transactions are deemed as recurrent related party transactions, we may seek a general mandate from our non-interested shareholders to enter into these transactions, subject to annual renewal and that our Directors will disclose in our Company's annual report the aggregate value of material recurrent related party transactions conducted pursuant to the mandate during the financial year, if any. The interested person shall abstain from all deliberations and voting on the relevant resolutions in respect of such proposed related party transactions at our general meetings. Pursuant to the Listing Requirements, related party transactions may be aggregated to determine their materiality if the related party transactions occurred within a 12-month period, are entered with the same party or with parties connected to one another or if the transactions involve the acquisition or disposal of securities or interests in one particular corporation/asset or of various parcels of land contiguous to each other.

**11. CONFLICT OF INTEREST**

---

**11.1 INTEREST IN ENTITIES CARRYING ON A SIMILAR TRADE AS OUR GROUP OR WHICH ARE OUR CUSTOMERS AND/OR SUPPLIERS**

As at the LPD, none of our Directors and Substantial Shareholders has any interest, direct or indirect, in any entities which:

- (i) carry on a similar trade as that of our Group; or
- (ii) are customers or suppliers of our Group.

In order to mitigate any possible conflict of interest situation, the Directors will declare to the ARMC and the Board of their interests in other companies at the onset and as and when there are changes in their respective interests in companies outside the Group.

Our ARMC will then evaluate if such a Director's involvement gives rise to an actual or potential conflict of interest with our Group's business after the disclosure is provided by such Director. After a determination has been made on whether there is an actual or potential conflict of interest of a Director, the ARMC will then report its findings to our Board. Our Board upon reviewing the recommendation by our ARMC, will engage in deliberation, review the matter and decide on the next course of action. When a potential conflict of interest is disclosed, our ARMC and Board will carefully evaluate the situation and may consider various feedback and actions to address the matter. The options considered shall not be limited to the following:

- (a) request for additional information;
- (b) evaluate the nature of the conflict;
- (c) determine the impact;
- (d) seek independence expertise;
- (e) mitigation measures;
- (f) enforcement; and
- (g) disciplinary actions.

Where a Director has disclosed a conflict of interest, the conflicted Director shall abstain from any discussion of the Board and Board committees relating to the subject of the conflict of interest and the conflicted Director shall not vote or in any way attempt to influence the discussion of, or voting on, the matter at issue. The conflicted Director, may however at the request of the Chairman of the Board and Board committees, be present at the Board and Board committees' meeting for the purposes of answering any questions.

In circumstances where a Director is determined to have a significant, ongoing and irreconcilable conflict of interest with our Group, and where such conflict of interest significantly impedes the Director's ability to carry out his fiduciary responsibility to our Group, our ARMC may take necessary disciplinary actions, such as reassignment, termination, or other appropriate measures.

**11. CONFLICT OF INTEREST (Cont'd)**

---

**11.2 DECLARATION OF CONFLICT OF INTEREST BY OUR ADVISERS****(i) PIVB**

PIVB, being our Principal Adviser, Sponsor, Sole Underwriter and Sole Placement Agent, is a wholly-owned subsidiary of PBB. PIVB together with PBB and its other subsidiary companies ("**PBB Group**") form a diversified financial group and are engaged in a wide range of investment and commercial banking, brokerage, securities trading, assets and funds management and credit transaction services businesses.

PBB Group has engaged and may in the future, engage in transactions with and perform services for our Group and/or our affiliates, in addition to the roles set out in this Prospectus. In addition, in the ordinary course of business, any member of the PBB Group may at any time offer or provide its services to or engage in any transaction (on its own account or otherwise) with any member of our Group, our shareholders, our and/or their affiliates and/or any other entity or person, hold long or short positions in securities issued by our Company and/or our affiliates, and may trade or otherwise effect transactions for its own account or the account of its customers in debt or equity services or senior loans of any member of our Group and/or our affiliates.

This is a result of the businesses of the PBB Group generally acting independently of each other, and accordingly, there may be situations where parts of PBB Group and/or its customers now have or in the future, may have interest or take actions that may conflict with the interest of our Group. Nonetheless, PBB Group is required to comply with applicable laws and regulations issued by the relevant authorities, which required, among others, segregation between dealing and advisory activities and Chinese Wall between different business divisions within the PBB Group.

As at the LPD, PBB, has in its ordinary course of business, granted total credit facilities of RM2.80 million with an outstanding balance of approximately RM1.66 million to our Group.

In addition, as at the LPD, our Group had secured a contract for an interior fit-out works project from PBB for a contract sum of RM21.97 million via a restricted tender. For information purposes, our Group is an approved vendor of the PBB Group. Prior to being listed as an approved vendor, our Group was subject to an assessment conducted by PBB, which include amongst others, assessment on our company background, legal and regulatory compliance, technical expertise and financial capability. In respect of the abovementioned project that we have secured, PBB had conducted a pre-qualification assessment on all approved vendors that registered their interest to participate in the tender and had subsequently invited the pre-qualified approved vendors to participate in the tender.

The tender submitted by our Group was based on market price without favourable pricing/terms, benchmarked against the current market conditions and on a basis comparable with similar interior fit-out works projects undertaken by our Group. For clarification, the timing of award for the project was driven by PBB's operational requirements which were pre-determined by the property division of PBB.

For the FPE 2025, no revenue has been recognised by our Group for this project as the project had only commenced in January 2026 where the revenue is expected to be realised progressively in the FYE 2026. Nonetheless, the contract value of this project of RM21.97 million has contributed 33.14% to our unbilled order book as at the LPD.

**11. CONFLICT OF INTEREST (Cont'd)**

Notwithstanding the above, PIVB is of the view that the abovementioned does not give rise to an existing or potential conflict of interest situation in its capacity as Principal Adviser, Sponsor, Sole Underwriter and Sole Placement Agent for our Listing due to the following:

- (a) the extension of credit facilities to our Group by PBB and the interior fit-out services provided by our Group to PBB arose in the ordinary course of business of the respective companies;
- (b) the conduct of PBB in its banking business is strictly regulated by among others, the Financial Services Act, 2013 as well as PBB's own internal controls and checks;
- (c) the outstanding balance of the total credit facilities granted to our Group by PBB, which represents less than 0.01% of the audited net assets of PBB Group as at 31 December 2024 is considered immaterial;
- (d) each division and entities within the PBB Group has separate and distinct operations and management whereby decisions are made independent of each other. As such, the property division of PBB that awarded the project to our Group operates as a separate division with distinct management from PIVB. Further, PIVB does not participate in the procurement, tender evaluation and award decision of PBB;
- (e) PIVB's role as the Principal Adviser for the IPO has been carried out professionally and objectively in accordance with the relevant terms of the due diligence planning memorandum. The due diligence processes and the verification exercises (which were participated by the Directors and Key Senior Management, the Reporting Accountants, the Solicitors, PIVB and other relevant advisers) have been duly undertaken and performed in relation to the preparation of relevant documents relating to our IPO;
- (f) none of the proceeds raised from the Public Issue are allocated for the repayment of bank borrowings by our Group to PBB; and
- (g) PIVB does not receive or derive any financial interest or benefit from our IPO other than the normal advisory and underwriting/placement fees charged.

**(ii) Law Kuan Yew & Co**

Law Kuan Yew & Co has confirmed that there is no existing or potential conflict of interest in its capacity as Solicitors to our Group in relation to our Listing.

**(iii) TGS TW PLT**

TGS TW PLT has confirmed that there is no existing or potential conflict of interest in its capacity as the Auditors and the Reporting Accountants to our Group in relation to our Listing.

**(iv) Providence**

Providence has confirmed that there is no existing or potential conflict of interest in its capacity as the IMR to our Group in relation to our Listing.

**12. FINANCIAL INFORMATION (Cont'd)**

For clarification, no share of results of associate was recorded for the FYE 2024 as the Group ceased to have significant influence over the associate upon transfer and registration of the shares in AES Asia to the purchaser dated 2 January 2024. However, the share sale agreement was completed on 14 May 2024, being the date of the full payment of purchase price in accordance with the terms of the share sale agreement.

- (b) Contract assets arise as a result of revenue recognised for satisfying the performance obligations but the progress billings have not been issued to our customers as such works have yet to reach the stage at which we are entitled to invoice our customers. Contract assets increased as a result of the significant progress in the interior fit-out services contract activities of which progress billings are pending to be issued to our customers.

The increase in contract assets from RM7.42 million as at 31 December 2022 to RM12.49 million as at 31 December 2023 was mainly attributed by I-City Project, Bandar Enstek Project and IOI Resort City Project. The increase in contract assets from RM12.49 million as at 31 December 2023 to RM17.11 million as at 31 December 2024 was mainly attributed by Jalan Ampang 1 Project and Section 15 Project. The increase in contract assets from RM17.11 million as at 31 December 2024 to RM23.85 million as at 30 September 2025 was mainly attributed by Bukit Damansara Project, Jalan Melaka Project and Johor Bahru Project.

**12.3 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following management's discussion and analysis of our Group's financial condition and results of operations for the Financial Years and Period Under Review should be read together with the Accountants' Report and related notes as set out in Section 14 of this Prospectus.

**12.3.1 Overview of our business operations**

Our Group is principally involved in the provision of interior fit-out services which can be further segmented under the following business activities:

(i) Interior fit-out works

We provide interior fit-out works based on design provided by our customers, as approved by design consultant, M&E consultant engineer, civil and structural consultant engineer and/or architect appointed by the customer. This encompasses the supervision and coordination of on-site activities to ensure that the projects are completed with quality standards and in accordance with the project timeline, as well as in line with the design specifications provided by our customers.

(ii) Turnkey fit-out services

We offer turnkey fit-out services where we are responsible for design and fit-out works that include coordinating, managing and supervising the entire interior fit-out process from the initial conceptual design, project implementation up to the project completion and handover upon issuance of CPC and rectification of defects during the DLP.

We specialise in providing interior fit-out services for commercial and industrial properties mainly for use as corporate offices, F&B outlets and sales galleries.

We principally operate in Malaysia and do not have a physical presence in any foreign country. However, we have provided interior fit-out services for overseas markets during the Financial Years and Period Under Review. In this regard, our Group will source for and/or appoint licensed subcontractors in the respective overseas markets to carry out interior fit-out works while we will be responsible for overall management of the interior fit-out project.

Please refer to Section 7 of this Prospectus for detailed information on our business activities.

## 12. FINANCIAL INFORMATION (Cont'd)

### 12.3.2 Segmental analysis by revenue

Our revenue is measured and recognised over the period of the contract by reference to the progress towards complete satisfaction of our performance obligation. The progress towards complete satisfaction of a performance obligation is determined by the proportion of fit-out costs incurred for work performed to date over the total estimated fit-out costs.

We are entitled to invoice our customers for interior fit-out services upon achieving a series of performance-related milestones. Our Group recognises a contract asset for any excess of revenue recognised to date over billing-to-date. Any amount previously recognised as a contract asset is reclassified to trade receivables at the point when an invoice is issued or timing for billing is due in the passage of time. If the milestone billing exceeds the revenue recognised to date and any deposits or advances are received from customers, then our Group recognises a contract liability for the difference.

Our Group's total revenue increased by RM15.72 million or 50.86% from RM30.91 million in FYE 2022 to RM46.63 million in FYE 2023, mainly due to an increase in revenue contribution from turnkey fit-out services segment of RM12.01 million or 380.06% and interior fit-out works segment of RM3.71 million or 13.37% during FYE 2023.

Our primary revenue contributor was interior fit-out projects for corporate offices, which contributed 98.07% and 80.06% of our total revenue in FYE 2022 and FYE 2023, respectively.

In FYE 2023, our total revenue was mainly derived from property owners or tenants which accounted for 54.95% of our total revenue (FYE 2022: 31.11%) whereby MNC customers accounted for 54.96% of our total revenue for FYE 2023 (FYE 2022: 43.77%).

**Interior fit-out works**

Interior fit-out works segment contributed 89.76% and 67.47% to our total revenue for FYE 2022 and FYE 2023, respectively. In FYE 2023, our revenue from this segment increased by RM3.71 million or 13.37% from RM27.75 million in FYE 2022 to RM31.46 million in FYE 2023. The increase in revenue was mainly attributable to:

- (i) commencement of following new interior fit-out works projects:
  - (a) I-City Project, which had contributed to a revenue of RM4.20 million, representing 13.35% of our revenue from interior fit-out works segment for FYE 2023; and
  - (b) interior fit-out works mainly comprising wall and partition finishes, ceiling finishes and floor finishes for a corporate office located at Mid Valley City, Kuala Lumpur for a total contract value of RM1.56 million ("**MV City 1 Project**"). This project had contributed to a revenue of RM1.35 million, representing 4.29% of our revenue from interior fit-out works segment for FYE 2023.
- (ii) higher level of interior fit-out activities performed which resulted in higher percentage of completion for the following ongoing interior fit-out work projects which commenced works in FYE 2022:
  - (a) Section 13 Project, which had contributed to a revenue of RM8.27 million, representing 26.29% of our revenue from interior fit-out works segment for FYE 2023 as compared to revenue of RM0.22 million recognised in FYE 2022;
  - (b) KL Sentral Project, which had contributed to a revenue of RM3.84 million, representing 12.21% of our revenue from interior fit-out works segment for FYE 2023 as compared to revenue of RM0.07 million in FYE 2022; and
  - (c) TTDI 1 Project, which had contributed to a revenue of RM3.29 million, representing 10.46% of our revenue from interior fit-out works segment for FYE 2023 as compared to revenue of RM0.11 million in FYE 2022.

**12. FINANCIAL INFORMATION (Cont'd)**

The increase in revenue from interior fit-out works segment was partially offset by the decrease in revenue from the following ongoing interior fit-out works projects due to completion of the projects:

- (i) decrease in revenue of RM6.39 million or 69.96% from Bukit Jalil 1 Project which was completed in December 2022. The lower revenue recorded in FYE 2023 was due to lower percentage of work done of 22.94% as compared to 76.37% in the FYE 2022. The revenue recognised in FYE 2023 was due to the receipt of subcontractors' and suppliers' invoices subsequent to the completion of the project as our Group's revenue is recognised based on percentage of completion using the cost incurred method;
- (ii) decrease in revenue of RM3.92 million or 99.34% from Jalan Sultan Ismail 1 Project which was completed in April 2022;
- (iii) decrease in revenue of RM2.46 million or 100.00% from Petaling Lama Project which was completed in July 2022;

Notes:

- (a) Subcontractors' costs were the largest component of our cost of sales, representing 78.68%, 85.01%, 74.61% and 77.55% of our total cost of sales for the Financial Years and Period Under Review, respectively. We generally engage the services of subcontractors to perform or assist us in performing certain aspects of our interior fit-out works, including ductwork, metal works and wet works under MEP works. Our subcontractors carry out all the fit-out works under our management and supervision.

The fluctuations in our subcontractors' costs were in tandem with the level and type of works that we outsourced to our subcontractors. This is part of our cost management strategy to engage subcontractors and avoid employing a large permanent workforce which may affect our profit margin due to high fixed costs during lower revenue periods.

- (b) Material purchases mainly comprise purchase of furniture and fittings, audio visual systems, air-conditioning systems, hardware and signage, tiles, plasters and panel as well as lightings. Material purchases were one of the main components of our cost of sales, representing 20.94%, 14.33%, 24.66% and 21.61% of our total cost of sales for the Financial Years and Period Under Review, respectively.

The fluctuations in material purchases during the Financial Years and Period Under Review were in tandem with the increase in our revenue and the implementation of our cost saving approach whereby the Group will procure the materials directly and only engage subcontractors for installation works.

- (c) Project overhead and other related costs mainly comprise subcontracted design and drawing fees, site expenses, custom duty and freight charges and project insurance.

**(iii) Commentary on cost of sales****FYE 2023 compared to FYE 2022**

Our Group's total cost of sales increased by RM12.02 million or 49.77% from RM24.15 million in FYE 2022 to RM36.17 million in FYE 2023, which corresponded with the increase in our revenue of 50.86% during the same period. The increase in total cost of sales was attributable to increase in subcontractors' costs of RM11.74 million or 61.79% from RM19.00 million in FYE 2022 to RM30.74 million in FYE 2023, which was in line with the increase in provision of interior fit-out services during FYE 2023. The increase in subcontractors' costs were mainly attributable to the increased manpower required for Section 13 Project, I-City Project, KL Sentral Project and TTDI Project as mentioned in Section 12.3.2(iv) of this Prospectus. In addition, a total of 14 new turnkey fit-out services projects commenced works in FYE 2023 which has resulted in the increase in subcontractors' costs.

**FYE 2024 compared to FYE 2023**

Our Group's total cost of sales decreased by RM1.29 million or 3.57% from RM36.17 million in FYE 2023 to RM34.88 million in FYE 2024, which mainly corresponded with our Group's lower revenue from interior fit-out works segment during the same period. The decrease in total cost of sales was attributable to decrease in subcontractors' costs of RM4.72 million or 15.35% from RM30.74 million in FYE 2023 to RM26.02 million in FYE 2024, which was in line with the decrease in revenue from interior fit out works segment during FYE 2024. The decrease in subcontractors' costs was mainly attributable to the decreased manpower required due to the completion of Section 13 Project, TTDI Project, I-City Project and KL Sentral Project as mentioned in Section 12.3.2(iv) of this Prospectus coupled with lesser materials were procured by subcontractors for FYE 2024 as compared with FYE 2023.

**12. FINANCIAL INFORMATION (Cont'd)**

The decrease in total cost of sales was offset by an increase in material purchases of RM3.42 million or 66.02% from RM5.18 million in FYE 2023 to RM8.60 million in FYE 2024, mainly attributable to the procurement of furniture and fittings, audio visual systems and air-conditioners for our interior fit-out projects in FYE 2024.

**FPE 2025 compared to FPE 2024**

Our Group's total cost of sales increased by RM33.01 million or 187.34% from RM17.62 million in FPE 2024 to RM50.63 million in FPE 2025, which corresponded with the increase in our revenue of 175.53% during the same period.

The increase in subcontractors' costs and material purchases was mainly attributable to the increased manpower and materials required for Jalan Ampang 2 Project, Bukit Damansara Project, Petaling Jaya Project, Klang 1 Project, Johor Bahru Project, Jalan Melaka Project and TTDI 2 Project as mentioned in Section 12.3.2(iv) of this Prospectus.

**12.3.4 Segmental analysis by GP and GP margin**

Our Group prices our projects based on project cost estimates after taking into consideration, amongst others, the size, complexity and specifications of the projects. The project cost is estimated at the beginning of the project based on expected purchases, subcontractors' cost, project overhead and project duration. Generally, the project cost estimates will be revised when required to reflect the actual incurred costs. Apart from project costs estimates, each project's GP may differ based on the scope of project, project duration and project margin.

**(ii) Commentary on GP and GP margin****FYE 2023 compared to FYE 2022**

Our GP increased by RM3.70 million or 54.73% from RM6.76 million in FYE 2022 to RM10.46 million in FYE 2023, mainly contributed by the increase in GP from our turnkey fit-out services segment of RM3.71 million in FYE 2023. The increase was offset by the slight decrease in GP from our interior fit-out works segment of RM0.01 million in FYE 2023.

Our overall GP margin increased to 22.44% in FYE 2023 (FYE 2022: 21.87%). This was mainly contributed by the improved GP margin from turnkey fit-out services segment in FYE 2023.

**Interior fit-out works**

Our cost of sales for the interior fit-out works segment increased by RM3.72 million or 17.13% from RM21.71 million in FYE 2022 to RM25.43 million in FYE 2023, which was higher than our revenue growth rate for this segment of 13.37% during the same period.

Our GP for interior fit-out works segment decreased slightly by RM0.01 million or 0.17% from RM6.04 million in FYE 2022 to RM6.03 million in FYE 2023. We recorded a lower GP margin for the interior fit-out works segment of 19.16% in FYE 2023 (FYE 2022: 21.76%). This was mainly attributable to 2 corporate office projects (including Section 13 Project), which contributed 32.58% of our Group's revenue from the interior fit-out works segment in FYE 2023 that had a cost overrun with negative GP margins of 6.19% and 5.43% respectively, as a result of an increase in the cost of materials where the Company was unable to pass on such increases to the customers.

Nonetheless, the lower GP margin was partially cushioned by the higher margins of 21 projects, representing 50.78% of our revenue from our Group's interior fit-out works segment in FYE 2023, that had average GP margin of 36.77% in FYE 2023.

**Turnkey fit-out services**

Our cost of sales for the turnkey fit-out services segment increased by RM8.29 million or 339.75% from RM2.44 million in FYE 2022 to RM10.73 million in FYE 2023, which was lower than our revenue growth rate for this segment of 380.06% during the same period.

The higher GP margin was attributable to provision of turnkey fit-out services for 14 new projects, representing 99.80% of our revenue from turnkey fit-out services segment in FYE 2023, that had an average GP margin of 29.23% in FYE 2023.

**FYE 2024 compared to FYE 2023**

Our GP increased by RM4.89 million or 46.75% from RM10.46 million in FYE 2023 to RM15.35 million in FYE 2024, mainly contributed by the increase in the GP from our turnkey fit-out services segment of RM4.01 million or 90.32%.

**12. FINANCIAL INFORMATION (Cont'd)**

Our overall GP margin increased to 30.56% in FYE 2024 (FYE 2023: 22.44%). This was mainly contributed by the improved GP margin from both segments in FYE 2024.

The increase in our GP margin from 22.44% in FYE 2023 to 30.56% in FYE 2024 was due mainly to effective cost management whereby our cost of sales has decreased despite an increase in our revenue. Nevertheless, the sustainability of our GP margin depends mainly on our continued efforts to manage our costs and also subject to no material unfavourable fluctuations in the price of materials and subcontractors' costs which may have an adverse impact on our financial performance in the future.

Interior fit-out works

Our cost of sales for the interior fit-out works segment decreased by RM6.41 million or 25.21% from RM25.43 million in FYE 2023 to RM19.02 million in FYE 2024. This was mainly attributable to:

- (a) 11 new corporate office projects which individually contributed revenue of more than RM0.10 million. These projects collectively contributed approximately RM19.82 million to our total revenue, representing approximately 76.47% of our revenue from interior fit-out works segment in FYE 2024, that had an average GP margin of 34.11% in FYE 2024; and

Our GP for the turnkey fit-out services segment increased by RM4.01 million or 90.32% from RM4.44 million in FYE 2023 to RM8.45 million in FYE 2024 and we recorded higher GP margin for our turnkey fit-out services segment of 34.77% in FYE 2024 (FYE 2023: 29.24%). The higher GP margin was attributable to an average GP margin of 41.08% for 12 projects performed of which these projects, representing 82.45% of our revenue from turnkey fit-out services segment in FYE 2024 were completed or near to completion in FYE 2024. Our GP increased by RM9.75 million or 144.66% from RM6.74 million in FPE 2024 to RM16.49 million in FPE 2025, contributed by the increase in GP from our interior fit-out works segment of RM11.57 million in FPE 2025. The increase was offset by the decrease in GP from our turnkey fit-out services segment of RM1.80 million in FPE 2025.

Our overall GP margin decreased to 24.57% in FPE 2025 (FPE 2024: 27.65%). This was mainly contributed by the lower GP margin from turnkey fit-out services segment in FPE 2025.

We recorded lower GP margin for our turnkey fit-out services segment of 23.57% in FPE 2025 (FPE 2024: 36.91%). **12.3.7 Net (loss)/reversal on impairment of financial assets and other expenses**

Our Group estimates a lifetime expected credit loss (“ECL”) allowance for all financial assets in accordance with Malaysian Financial Reporting Standard (“MFRS”) 9 – Financial Instruments. Collective impairment was based on the credit risk and the days past due, while individual impairment was based on specific receivables that are credit impaired. Reversals of impairment losses are made when there are subsequent collections.

Our finance costs increased by RM0.02 million or 40.00% from RM0.05 million in FYE 2022 to RM0.07 million in FYE 2023, which was mainly attributable to an increase in interest expenses on bankers' acceptances as a result of higher utilisation of banker's acceptances for payment to our suppliers and subcontractors during FYE 2023.

**12. FINANCIAL INFORMATION (Cont'd)****FYE 2024 compared to FYE 2023**

Our finance costs increased by RM0.09 million or 128.57% from RM0.07 million in FYE 2023 to RM0.16 million in FYE 2024 which was attributable to:

- (i) higher interest expenses on lease liabilities of RM0.06 million arising from 1 additional unit of rented office and an increase in rental rates of 2 units of rented offices during FYE 2024;
- (ii) higher interest expenses on term loans in FYE 2024, due to drawdown of 2 new term loans with a total principal amount of RM2.00 million in FYE 2024 to finance our working capital; and
- (iii) higher interest expenses on bankers' acceptances in FYE 2024 due to higher utilisation of bankers' acceptances for payment to our suppliers and subcontractors in FYE 2024.

**FPE 2025 compared to FPE 2024**

Our finance costs increased by RM0.38 million or 475.00% from RM0.08 million in FPE 2024 to RM0.46 million in FPE 2025 which was attributable to:

**FYE 2023 compared to FYE 2022**

Our PBT increased by RM2.16 million or 47.79% from RM4.52 million in FYE 2022 to RM6.68 million in FYE 2023, mainly due to higher GP recorded in FYE 2023 which was moderated by the higher administrative expenses incurred for FYE 2023. Despite the increase in GP margin from 21.87% in FYE 2022 to 22.44% in FYE 2023, our PBT margin decreased slightly from 14.63% in FYE 2022 to 14.32% in FYE 2023. The decrease in PBT margin was mainly due to the increase in administrative expenses of 53.81% higher than the increase in revenue of 50.86% in FYE 2023.

**12. FINANCIAL INFORMATION (Cont'd)**

Our effective tax rate of 24.68% in FYE 2023 (FYE 2022: 24.31%) was slightly higher than the statutory tax rate of 24.00%, mainly due to non-deductible expenses for tax purposes such as depreciation for non-qualifying assets and professional fees.

Our PAT increased by RM1.61 million or 47.08% from RM3.42 million in FYE 2022 to RM5.03 million in FYE 2023 which was contributed by the increase in GP as mentioned above. Our PAT margin decreased slightly from 11.07% in FYE 2022 to 10.79% in FYE 2023 mainly due to higher tax expense of RM1.65 million in FYE 2023, an increase of RM0.55 million or 50.00% as compared to FYE 2022.

**FYE 2024 compared to FYE 2023**

Our PBT increased by RM2.15 million or 32.19% from RM6.68 million in FYE 2023 to RM8.83 million in FYE 2024, mainly due to higher GP recorded in FYE 2024 which was moderated by the higher administrative expenses incurred for FYE 2024. Our PBT margin increased from 14.32% in FYE 2023 to 17.59% in FYE 2024. The increase in PBT margin was mainly due to the increase in GP margin from 22.44% in FYE 2023 to 30.56% in FYE 2024 as explained in Section 12.3.4(ii) above.

Our effective tax rate of 27.65% in FYE 2024 (FYE 2023: 24.68%) was higher than the statutory tax rate of 24.00%, mainly due to under provision of current tax in prior financial year of RM0.32 million and non-deductible expenses for tax purposes such as depreciation for non-qualifying assets and professional fees.

Our PAT increased by RM1.36 million or 27.04% from RM5.03 million in FYE 2023 to RM6.39 million in FYE 2024 following the improvement in PBT. Similarly, PAT margin also increased from 10.79% in FYE 2023 to 12.72% in FYE 2024.

**FPE 2025 compared to FPE 2024**

Our PBT increased by RM7.01 million or 357.65% from RM1.96 million in FPE 2024 to RM8.97 million in FPE 2025, mainly due to higher GP recorded in FPE 2025 which was moderated by the higher administrative expenses and finance costs incurred for FPE 2025. Our PBT margin increased from 8.03% in FPE 2024 to 13.36% in FPE 2025. The increase in PBT margin was mainly due to the increase in GP of 144.66% which is higher than the increase in administrative expenses of 44.94%.

The effective tax rate of 27.80% for FPE 2025 was higher than the statutory tax rate of 24.00%, mainly due to non-deductible expenses such as depreciation for non-qualifying assets, provision for Outstanding EPF Contributions, stamp duty and under provision of income tax for the year of assessment 2024.

Our PAT increased by RM5.38 million or 489.09% from RM1.10 million in FPE 2024 to RM6.48 million in FPE 2025 following the improvement in PBT. Similarly, PAT margin also increased from 4.50% in FPE 2024 to 9.65% in FPE 2025.

**12. FINANCIAL INFORMATION (Cont'd)****12.4 SIGNIFICANT FACTORS AFFECTING OUR OPERATIONS AND FINANCIAL PERFORMANCE**

Section 9 of this Prospectus details a number of risk factors relating to our business and the industry in which we operate. Some of the risk factors have an impact to our Group's revenue and financial performance. The main factors which affect our revenue and profit include but not limited to the following:

**(i) Our business and financial performance are dependent on our ability to secure new projects to replenish our order book**

The provision of our interior fit-out services are typically project-based, with revenue recognised progressively from project execution through to the completion of works. As such, our financial performance, including revenue, profitability and operating cash flow, is subject to fluctuations depending on the number, value and completion stage of the projects undertaken in any given financial year.

In order to sustain our business operations and financial performance, we would have to continuously secure new interior fit-out projects. As our projects are typically awarded through tender process, we are required to actively participate in tender exercises and submit proposals for each potential project. However, there is no assurance that we will be successful in every tender or in securing new projects on a continuous basis in the future. If we are unable to consistently replenish our order book with new projects, it may materially and adversely affect our revenue, profitability and future prospects.

Please refer to Section 9.1.1 of this Prospectus for further details on risk factors.

**(ii) We are dependent on the quality of services of our subcontractors and materials from our suppliers**

During the Financial Years and Period Under Review, subcontractors' costs accounted for 78.68% (RM19.00 million), 85.01% (RM30.74 million), 74.61% (RM26.02 million) and 77.55% (RM39.26 million) of our Group's total cost of sales for the FYE 2022, FYE 2023, FYE 2024 and FPE 2025, respectively, while material purchases accounted for 20.94% (RM5.06 million), 14.33% (RM5.18 million), 24.66% (RM8.60 million) and 21.61% (RM10.94 million) of our Group's total cost of sales for the FYE 2022, FYE 2023, FYE 2024 and FPE 2025, respectively.

In the event that our subcontractors fail to deliver the work in accordance with the project schedule and quality requirements, it may result in project delays, additional costs or potential claims from our customers. It may also affect our reputation, which could subsequently impact our ability to secure new projects from existing or new customers in the future.

Please refer to Section 9.1.2 of this Prospectus for further details on risk factors.

**(iii) Our business is dependent on certain registrations, licences and permits**

As at the LPD, we have obtained all required registrations, licences and permits to carry out our business and we have not encountered any suspension or non-renewal of registrations and/or licences. We must comply with any regulations, terms and conditions imposed by the relevant authorities to retain such registrations and/or licences. This includes notifying and submitting to CIDB information and documents relating to construction works secured, whether new or otherwise, including changes in the value of the interior fit-out works, as well as making levy payments.

**12. FINANCIAL INFORMATION (Cont'd)**

Failure to comply with the regulations, terms and conditions imposed by the relevant authorities may result in the imposition of fines and penalties, suspension, cancellation or non-renewal of our registrations and/or licences. The failure to keep or renew promptly the requisite registrations and/or licences could result in the suspension or restrictions in our business operations including our ability to participate in tenders and to carry out interior fit-out services which would adversely affect our business operations and financial performance.

Please refer to Section 9.1.3 of this Prospectus for further details on risk factors.

**(iv) Any breaches of HSE laws and regulations may result in penalties including the suspension of our operations**

We must comply with the relevant HSE laws and regulations at the worksites. These HSE laws and regulations are concerned with, amongst others, the occupational health and safety of our employees and subcontractors as they perform their work, and the effect that our work may have on the environment as well as occupants and visitors of the buildings.

Failure to comply with the relevant HSE laws and regulations, and events such as worksite accidents that injure or harm our employees, subcontractors and people within the premises may lead to the relevant authorities taking action against us, such as suspending or restricting our operations at the affected worksite and/or taking administrative or legal action against us.

Please refer to Section 9.1.4 of this Prospectus for further details on risk factors.

**(v) We face the risk of cost overruns for our interior fit-out projects**

Upon receiving a tender invitation from a prospective customer, we will conduct a preliminary assessment on the project, which includes evaluating the requirements, timeline, feasibility of the project and the scope of work. In preparing our tender submission, we estimate the project costs and budget based on quotations obtained from our suppliers and subcontractors, as well as our internal cost estimations.

However, the profitability of our projects, and eventually our Group's financial performance, may be impacted by unforeseen increases in project costs that arise after the submission of our tender or proposal up until project completion. These may include variation orders, as well as unfavourable fluctuations in the price of materials and subcontractor costs. If we are unable to pass on these cost increases to our customers, such events may result in cost overruns, which could adversely affect our profit margins and overall financial results. Any prolonged delay in the project execution may require us to extend the engagement period with our subcontractors and may further contribute to cost overruns.

Please refer to Section 9.1.5 of this Prospectus for further details on risk factors.

**(vi) We are subject to risks inherent in the interior fit-out industry and property development industry**

We are principally involved in the provision of interior fit-out services, particularly for commercial and industrial properties. As such, our business is subject to risks relating to the interior fit-out industry. Any challenges, downturns and/or decline in the demand for interior fit-out services, specifically for commercial and industrial properties, may negatively impact our business operations, financial performance and prospects.

**12. FINANCIAL INFORMATION (Cont'd)**

As the interior fit-out industry is part of the value chain of the property development industry, any downturn in the property development industry may also adversely affect our Group. Such a downturn is generally characterised by a reduction in the number of property development projects, including commercial and industrial properties. This may indicate a decline in the demand for interior fit-out services, particularly for the setting up of new offices and operational facilities by commercial and industrial property owners and/or tenants. The property development industry may be affected by a number of factors such as general economic conditions, changes in Government initiatives and policies, as well as changes in lending policies and practices by financial institutions. The occurrence of any of such events is beyond our control, and there can be no assurance that we will not be affected by these events.

During the Financial Years and Period Under Review, our Group has not been engaged to provide interior fit-out services for any property development projects. However, there is no assurance that any downturn in the property development industry in the future which may lead to lower demand of interior fit-out services will not materially affect our business operations and financial performance.

Please refer to Section 9.2.1 of this Prospectus for further details on risk factors.

**(vii) We face competition from other industry players**

We operate in a highly competitive industry where we face competition from other industry players who offer similar services as us. Key factors that affect our competitiveness include pricing, service quality, availability of manpower and financial resources, as well as timely delivery. Some of our competitors may have a longer operating history and greater financial resources as compared to us.

Whilst we compete based on the quality of our services, there can be no assurance that we will be able to compete effectively with our new or existing competitors. In the event where we fail to compete effectively or maintain our competitiveness in the market, our business operations, financial performance and prospects may be adversely affected.

Please refer to Section 9.2.2 of this Prospectus for further details on risk factors.

**12.5 LIQUIDITY AND CAPITAL RESOURCES****12.5.1 Working capital**

Our business operations are financed by a combination of internal and external sources of funds. Our internal sources of funds comprise cash generated from our business operations while external sources are mainly banking facilities from financial institutions. These funds are mainly used for our business operations and growth.

As at 30 September 2025, our cash and cash equivalents were RM8.72 million and our total borrowings were RM10.36 million (excluding lease liabilities arising from rented offices classified as right-of-use assets). As at 30 September 2025, our gearing ratio was 0.71 times and the current ratio was 1.57 times. As at the LPD, we have total banking facilities including term loans and trade line (which includes bank guarantees) of RM14.80 million available to our Group for working capital purposes, of which RM3.28 million has yet to be utilised.

After taking into consideration the funding requirements for our committed capital expenditures and our future plans as set out in Section 7.18 of this Prospectus, our existing level of cash and cash equivalents, expected cash flows to be generated from our operations and the estimated net proceeds from the Public Issue, our Board is of the view that we will have sufficient working capital for a period of 12 months from the date of this Prospectus.

At this juncture, we do not foresee any circumstances which will materially affect our liquidity.

We utilise banking facilities such as term loans to finance the working capital and bankers' acceptances for payment to our suppliers and subcontractors. In addition, we also utilise hire purchase to finance the purchase of motor vehicles which are classified under lease liabilities. Further, lease liabilities also arise from our rental obligation for our rented offices which is the financial obligation for the payments required by a lease and discounted to present value.

All of our borrowings (excluding lease liabilities arising from rented offices classified as right-of-use assets) are secured, interest-bearing and denominated in RM. Our total outstanding borrowings as at 30 September 2025 stood at RM10.36 million, details of which are set out below:

**12. FINANCIAL INFORMATION (Cont'd)**

Note:

- (a) The performance guarantees are issued to our customers as security for the performance of contractual obligations under the projects awarded.

The liabilities in respect of the bank guarantees will only crystallise and become payable following a call by our customers of the performance guarantees in accordance with the terms and conditions of such contracts. During the Financial Years and Period Under Review, we did not experience any call of the performance guarantees issued to our customers.

We have not defaulted on payments of principal sums and/or interests in respect of any of our borrowings throughout the Financial Years and Period Under Review and up to the LPD.

Our Group does not encounter any seasonality in our borrowings trend.

As at the LPD, neither our Company nor any of our Subsidiaries are in breach of any terms and conditions or covenants associated with the credit arrangements or bank loans which can materially affect our financial position and results, or business operations or the investments by holders of our securities.

During the Financial Years and Period Under Review, we did not experience any claw back or reduction in the facilities limit granted to us by our lenders.

As at the LPD, we have collected RM8.93 million or 94.00% of the total trade receivables which were outstanding as at 30 September 2025. After taking into consideration the subsequent collections as at the LPD, RM0.41 million of the total trade receivables which relates to outstanding payments from a customer had past due for more than 90 days. Our Group has entered into a settlement agreement with the customer whereby the outstanding amounts will be settled via instalment payment. Our Group is closely following up on our collections and ensuring the recoverability of such receivables.

Our management closely monitors the recoverability of trade receivables on a regular basis, and, when appropriate, provides for specific impairment on these trade receivables. Our Board is of the view that the trade receivables are recoverable after taking into consideration the payment history of these customers.

**12. FINANCIAL INFORMATION (Cont'd)**

The normal credit terms granted by our suppliers and subcontractors are between 30 days and 60 days from the date of invoice.

Our average trade payables turnover period for the Financial Years and Period Under Review were between 53 days and 103 days, of which our average trade payables turnover period for FYE 2024 and FPE 2025 of 103 days and 84 days had exceeded the credit terms granted by our suppliers and subcontractors.

Our Group's average trade payables turnover period decreased from 59 days in FYE 2022 to 53 days in FYE 2023 due to timely payments made to our suppliers and subcontractors during FYE 2023. Our Group's average trade payables turnover period rose to 103 days in FYE 2024 from 53 days in FYE 2023 mainly due to higher outstanding balance owing to suppliers and subcontractors and in relation to new projects in FYE 2024.

Our Group's average trade payables turnover period decreased from 103 days in FYE 2024 to 84 days in FPE 2025 due to prompt payments made to our suppliers and subcontractors during FPE 2025.

We have established a long-standing relationship with our suppliers and subcontractors, and we have not encountered any issue in spite of the slower payment to them. Our suppliers and subcontractors have allowed a longer period for payment in view of our established relationship with them, our payment history and credentials.

The ageing analysis of our Group's trade payables (excluding retention sum) as at 30 September 2025 is as follows:

	Not past due	Past due			Total
		1 - 30 days	31 - 90 days	More than 90 days	
	RM'000	RM'000	RM'000	RM'000	RM'000
Trade payables (excluding retention sum)	10,943	2,511	2,189	1,199	16,842
<i>Proportion of trade payables (%)</i>	<i>64.97</i>	<i>14.91</i>	<i>13.00</i>	<i>7.12</i>	<i>100.00</i>
Subsequent payments as at the LPD	9,264	2,092	2,118	1,018	14,492
Net trade payables after subsequent payments	1,679	419	71	181	2,350
<i>Proportion of trade payables after subsequent payments (%)</i>	<i>71.45</i>	<i>17.83</i>	<i>3.02</i>	<i>7.70</i>	<i>100.00</i>

As at the LPD, we have settled RM14.49 million or 86.05% of the total trade payables which were outstanding as at 30 September 2025. The remaining trade payables that are still outstanding as at the LPD accounted for 13.95% of our total trade payables as at 30 September 2025. The net trade payables after subsequent payments that remained past due of RM0.67 million, which represents approximately 28.55% of the total net trade payables after subsequent payments were mainly due to our working capital management to match the timing of payment to our suppliers and subcontractors with the collections from our customers as well as amount pending settlement subject to completion of rectification works to be carried out by our subcontractors for certain projects.

As at the LPD, we do not have any disputes in respect of our trade payables and no legal proceedings to demand for payment have been initiated by our suppliers against us.

**12. FINANCIAL INFORMATION (Cont'd)****12.9.3 Current ratio**

	Audited as at			
	31 December			30 September
	2022	2023	2024	2025
	RM'000	RM'000	RM'000	RM'000
Current assets	16,688	19,903	28,724	44,603
Current liabilities	10,879	12,643	19,547	28,428
Current ratio (times) <sup>(a)</sup>	1.53	1.57	1.47	1.57

Note:

(a) Computed based on current assets over current liabilities.

Our current ratio ranged from 1.47 to 1.57 times during the Financial Years and Period Under Review. This indicates that our Group is capable of meeting our current obligations as our current assets, which can be readily converted to cash together with our cash and bank balances, are sufficient to meet immediate current liabilities.

The increase in our current ratio as at 31 December 2023 to 1.57 times as compared to 1.53 times as at 31 December 2022 was mainly due to increase in net contract assets in relation to timing difference with higher revenue recognised for works performed based on the cost incurred method compared to the progress billings issued to our clients, which was pending their certification. The increase in our current ratio as at 31 December 2023 was partially offset by the increase in other payables due to higher accrued bonus as well as dividend payable as at 31 December 2023.

In FYE 2024, the decrease in our current ratio as at 31 December 2024 to 1.47 times as compared to 1.57 times as at 31 December 2023 was mainly due to increase in borrowings attributable to drawdown of 2 new term loans with total principal amount of RM2.00 million in FYE 2024 which were used for our working capital and the utilisation of bankers' acceptances of RM2.10 million, as well as increase in trade payables attributable to higher outstanding balance owing to subcontractors and suppliers in relation to the new projects in FYE 2024. Nevertheless, the decrease in our current ratio as at 31 December 2024 was cushioned by the increase in net contract assets due to timing difference with higher revenue recognised for works performed based on the cost incurred method compared to the progress billings issued to our clients, which was pending their certification, as well as increase in trade receivables attributed to higher progress billings issued to clients for the provision of interior fit-out services towards the last quarter of FYE 2024.

In FPE 2025, the increase in our current ratio as at 30 September 2025 to 1.57 times as compared to 1.47 times as at 31 December 2024 was mainly due to increase in cash and bank balances of RM5.74 million due to higher utilisation of bankers' acceptance for payment to our suppliers and subcontractors coupled with the increase in net contract assets of RM5.89 million, as well as increase in trade receivables attributed to higher progress billings issued to clients for the provision of interior fit-out services towards the end of FPE 2025.

Nevertheless, the increase in our current ratio as at FPE 2025 was partially offset by the increase in borrowings attributable to the higher utilisation of bankers' acceptances and drawdown of 1 new term loan with total principal amount of RM1.00 million in FPE 2025 for working capital purposes.

Notes:

- (a) Excluding lease liabilities arising from rented offices classified as right-of-use assets.
- (b) Computed based on total borrowings (excluding lease liabilities arising from rented offices classified as right-of-use assets) over total equity.

Our gearing ratio decreased from 0.40 times as at 31 December 2022 to 0.27 times as at 31 December 2023, due to an increase in total equity as a result of the increase in retained earnings and decrease in total borrowings from the repayment of total borrowings during FYE 2023.

Our gearing ratio increased from 0.27 times as at 31 December 2023 to 0.66 times as at 31 December 2024, due to an increase in total borrowings as a result of drawdown of 2 term loans for working capital purposes and higher utilisation of bankers' acceptances for payment to our suppliers and subcontractors in FYE 2024. The increase in gearing ratio was cushioned by the increase in total equity as a result of the increased retained earnings.

Our gearing ratio increased from 0.66 times as at 31 December 2024 to 0.71 times as at 30 September 2025, due to an increase in total borrowings as a result of higher utilisation of bankers' acceptances for payment to our suppliers and subcontractors and drawdown of 1 term loan for working capital purposes in FPE 2025. The increase in gearing ratio was cushioned by the increase in total equity as a result of the increased retained earnings.

**12.10 IMPACT OF GOVERNMENT, ECONOMIC, FISCAL OR MONETARY POLICIES**

Our business is subject to the risks relating to government, economic, fiscal or monetary policies. Any unfavourable changes in the government policies, economic conditions, or fiscal or monetary policies may materially affect our operations in Malaysia. Please refer to Section 9.2.3 of this Prospectus for further details.

**12.11 IMPACT OF INFLATION**

Our financial performance for the Financial Years and Period Under Review was not materially affected by the impact of inflation. Nevertheless, there can be no assurance that future inflation would not have an impact on our business and financial performance.

**12.12 IMPACT OF INTEREST RATES, COMMODITY PRICES AND/OR FOREIGN EXCHANGE RATES ON OUR GROUP'S OPERATIONS**

We are exposed to market risks arising from our operations. Our key market risk exposures are to foreign exchange risk.

**12. FINANCIAL INFORMATION (Cont'd)****Interest rate risk**

All our borrowings are interest bearing obligations. Any hikes in interest rates would affect our financial performance. Our finance cost mainly comprises interest charges on term loans, bankers' acceptances and hire purchases that are granted by banks and financial institutions. In this respect, we may be exposed to the liquidity risk that arises principally from our borrowings and the timing of costs incurred and collections from our customers.

As at 30 September 2025, our bank borrowings of RM10.36 million were interest bearing. Save for hire purchase which were based on fixed rates, all our borrowings were based on the prevailing bank's base lending rate or base financing rate plus/minus a margin agreed with our financial institutions when respective financing facilities were granted. In this respect, any increase in interest rates may have an impact on our financial performance. For the Financial Years and Period Under Review and up to the LPD, we have not defaulted on any payments of either principal and/or interests in relation to our borrowings.

**Commodity price fluctuation risk**

Our material purchases mainly comprise furniture and fittings, hardware, audio visual systems, air-conditioners, tiles, plasters and panel as well as lightings which are not commodities.

**Foreign exchange risk**

While our Group primarily operates within the Malaysian market and engages in minimal foreign currency transactions, we are still exposed to foreign currency fluctuation risk. Although the majority of our transactions are conducted in RM, any unfavourable fluctuation in foreign currency rates may have an adverse impact on our financial performance. A depreciation of the RM against the currencies which we transact will lead to higher revenue in RM after conversion, whereas it will also lead to higher purchases in RM after conversion. Conversely, appreciation of the RM against the currencies which we transact will lead to lower revenue and lower purchases in RM after conversion.

However, given that our exposure to foreign exchange fluctuations is limited, the direct impact on our financial results is relatively minimal. We will continuously monitor foreign currency fluctuations to ensure that any potential impacts are identified and addressed in a timely manner.

**12.13 ORDER BOOK**

Details of our unbilled order book as at the LPD are as follows:

	<b>As at 30 September 2025</b>	<b>As at the LPD</b>
	<b>RM'000</b>	<b>RM'000</b>
Interior fit-out works	37,740	56,752
Turnkey fit-out services	13,262	9,548
<b>Total</b>	<b>51,002</b>	<b>66,300</b>

The above unbilled order book relates to the contract value of projects which are ongoing and completed (upon issuance of CPC) less progress billings issued up to the LPD. There may be variations from the contract amount as compared to the final works to be performed resulting from, amongst others, changes in project requirements, which may take place during implementation of the project.

Our Group continues to participate in tenders to secure new contracts in order to replenish our order book. As at the LPD, we have participated in tenders and/or submitted proposals for various interior fit-out projects. These projects, if awarded, will increase our order book.

### **12.15 SIGNIFICANT CHANGES**

There are no significant changes that have occurred, which may have a material effect on our financial position and results subsequent to the FPE 2025 and up to the LPD.

### **12.16 ACCOUNTING POLICIES AND AUDIT QUALIFICATION**

There are no accounting policies which are peculiar to our Group because of the nature of the business and industry which we are involved in. For further details on the significant accounting policies of our Group, please refer to Note 2 of the Accountants' Report as set out in Section 14 of this Prospectus. The Accountants' Report does not contain any audit qualification for the Financial Years and Period Under Review.

### **12.17 DIVIDEND POLICY**

It is our Board's policy to recommend dividends to allow our shareholders to participate in the profits of our Group as well as leaving adequate reserves for the future growth of our Group. Nonetheless, our Company does not have any formal dividend policy.

Our Group's ability to distribute dividends to our shareholders is subject to various factors, including our Group's financial performance, capital expenditure requirements and any other factors considered relevant by our Board. - (iii) our anticipated future operating conditions and expansion taking into consideration projected capital expenditure and investment plans;
- (iv) our working capital requirements;
- (v) any contractual restrictions and/or commitments; and
- (vi) prior written consent from financial institutions, where required.

As at the LPD, save for any applicable financial covenants and the Act, and subject to the availability of distributable profits and reserves, there are no dividend restrictions imposed on us or our Subsidiaries.

We cannot assure you that we will be able to pay dividends or that our Board will declare dividends in the future. There can also be no assurance that future dividends declared by our Board, if any, will not differ materially from historical dividend levels. No inference should be made from any of the foregoing statements as to our actual future profitability and our ability to pay dividends in the future.

Dividend payments, capital gains and profits from dealing in our Shares will not be subject to Malaysian taxation other than the 2.00% dividend tax which will take effect in the 2025 assessment year on annual dividend income exceeding RM100,000.00 received by individual shareholders, and entities, including companies, with trading of shares as their principal activity. No withholding tax is imposed on the above transactions.

*Independence and Other Ethical Responsibilities*

We are independent of the combining entities in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

**14. ACCOUNTANTS' REPORT (Cont'd)****Responsibilities of the Directors for the Financial Information**

The Directors of the Company are responsible for the preparation of Financial Information of the combining entities that give a true and fair view in accordance with the Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of Financial Information of the combining entities that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Information of the combining entities, the Directors are responsible for assessing the combining entities' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the combining entities or to cease operations, or have no realistic alternative but to do so.

**Reporting Accountants' Responsibilities for the Audit of the Financial Information**

Our objectives are to obtain reasonable assurance about whether the Financial Information of the combining entities as a whole are free from material misstatement, whether due to fraud or error, and to issue a report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Information.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Information of the combining entities, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the combining entities' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the combining entities' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our accountants' report to the related disclosures in the Financial Information of the combining entities or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the combining entities to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Information of the combining entities, including the disclosures, and whether the Financial Information of the combining entities represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the combining entities audit to obtain sufficient appropriate audit evidence regarding the Financial Information of the combining entities or business activities within the combining entities as a basis for forming an opinion on the Financial Information of the combining entities. We are responsible for the direction, supervision and review of the audit work performed for purpose of the combining entities audit. We remain solely responsible for our audit opinion.

**14. ACCOUNTANTS' REPORT (Cont'd)****Reporting Accountants' Responsibilities for the Audit of the Financial Information (Cont'd)**

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**2. Basis of preparation (Cont'd)****(a) Statement of compliance (Cont'd)****(ii) Standards issued but not yet effective (Cont'd)**

The combining entities intend to adopt the above new and amendments to MFRSs when they become effective.

The initial applications of the above-mentioned new and amendments to MFRSs are not expected to have any significant impacts on the combined financial statements of the combining entities.

**(b) Functional and presentation currency**

These combined financial statements are presented in Ringgit Malaysia ("RM"), which is the combining entities' functional currency. All financial information is presented in RM and has been rounded to the nearest RM except when otherwise stated.

**(c) Significant accounting judgements, estimates and assumptions**

The preparation of the combining entities' combined financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the assets or liabilities affected in the future.

**Judgements**

The following are the judgements made by management in applying the combining entities' accounting policies that have the most significant effect on the amounts recognised in the financial statements:

Satisfaction of performance obligations in relation to contracts with customers

The combining entities are required to assess each of its contracts with customers to determine whether performance obligations are satisfied over time or at a point in time in order to determine the appropriate method for recognising revenue. This assessment was made based on the terms and conditions of the contracts, and the provisions of relevant laws and regulation.

The combining entities recognise revenue over time in the following circumstances:

- (i) The customer simultaneously receives and consumes the benefits provided by the combining entities' performance as the combining entities perform;
- (ii) The combining entities do not create an asset with an alternative use to the combining entities and have an enforceable right to payment for performance completed to date; and
- (iii) The combining entities' performance creates or enhances an asset that the customer controls as the asset is created or enhanced.

When the above criteria are not met, revenue is recognised at a point in time. Where revenue is recognised at a point in time, the combining entities assess each contract with customers to determine when the performance obligation of the combining entities under the contract is satisfied.

Determining the lease term of contracts with renewal and termination options – combining entities as lessee

The combining entities determine the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if they are reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if they are reasonably certain not to be exercised.

---

**14. ACCOUNTANTS' REPORT (Cont'd)**

---

**2. Basis of preparation (Cont'd)****(c) Significant accounting judgements, estimates and assumptions (Cont'd)****Judgements (Cont'd)**Determining the lease term of contracts with renewal and termination options – combining entities as lessee (Cont'd)

The combining entities have several lease contracts that include extension and termination options. The combining entities apply judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the combining entities reassess the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

The combining entities include the renewal period as part of the lease term for leases of building with non-cancellable period included as part of the lease term as these are reasonably certain to be exercised because there will be a significant negative effect on operation if a replacement asset is not readily available. Furthermore, the periods covered by termination options are included as part of the lease term only when they are reasonably certain not to be exercised.

**Key sources of estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period are set out below:

Useful lives of property, plant and equipment

The combining entities regularly review the estimated useful lives of property, plant and equipment based on factors such as business plan and strategies, expected level of usage and future technological developments. Future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned above. A reduction in the estimated useful lives of property, plant and equipment would increase the recorded depreciation and decrease the value of property, plant and equipment.

The carrying amount at the reporting date for property, plant and equipment is disclosed in Note 3 to the combined financial statements.

Revenue recognition for contracts with customers

The combining entities recognise contract revenue by reference to the progress or milestones based on the work performed or services rendered by the combining entities. Significant judgements are required in determining the progress towards complete satisfaction of the performance obligations based on actual costs incurred to date over estimated total costs. The carrying amount of contract assets and contract liabilities as at the reporting date are disclosed in Note 7 to the combined financial statements.

Deferred tax assets

Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The carrying value of recognised deferred tax assets are disclosed in Note 5 to the combined financial statements.

**14. ACCOUNTANTS' REPORT (Cont'd)****2. Basis of preparation (Cont'd)****(c) Significant accounting judgements, estimates and assumptions (Cont'd)****Key sources of estimation uncertainty (Cont'd)**Determination of transaction prices

The combining entities are required to determine the transaction price in respect of each of its contracts with customers. In making such judgement, the combining entities assess the impact of any variable consideration in the contracts due to discounts or penalties, the existence of any significant financing component and any non-cash consideration in the contracts.

There is no estimation required in determining the transaction price, as revenue from sale of goods are based on invoices values. Discounts are not considered as they are only given in rare circumstances.

Provision for expected credit loss of financial assets at amortised cost and contract assets

The combining entities review the recoverability of its receivables and contract assets at each reporting date to assess whether an impairment loss should be recognised. The impairment provisions for receivables and contract assets are based on assumptions about risk of default and expected loss rates. The combining entities use judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the combining entities' past history and existing market conditions at the end of each reporting period.

The combining entities use a provision matrix to calculate expected credit loss for receivables and contract assets. The provision rates are based on number of days past due.

The provision matrix is initially based on the combining entities' historical observed default rates. The combining entities will calibrate the matrix to adjust the historical credit loss experience. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and expected credit loss is a significant estimate. Information about the expected credit loss is disclosed in Note 6 to the combined financial statements.

Income taxes

Judgement is involved in determining the provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business.

The combining entities recognise liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Discount rate used in leases

Where the interest rate implicit in the lease cannot be readily determined, the combining entities use the incremental borrowing rate to measure the lease liabilities. The incremental borrowing rate is the interest rate that the combining entities would have to pay to borrow over a similar term, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. Therefore, the incremental borrowing rate required estimation, particularly when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The combining entities estimate the incremental borrowings rate using observable inputs when available and is required to make certain entity-specific estimates.

Credit risk is the risk of a financial loss to the combining entities if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The combining entities' exposure to credit risk arises principally from the trade receivables, other receivables, amount due from Directors, fixed deposit with licensed bank and cash and bank balances. There are no significant changes as compared to previous financial year.

The combining entities have adopted a policy of only dealing with creditworthy counterparties. Management has a credit policy in place to control credit risk by dealing with creditworthy counterparties and deposits with banks with good credit rating. The exposure to credit risk is monitored on an ongoing basis and action will be taken for long outstanding debts.

At each reporting date, the combining entities assess whether any of the receivables are credit impaired.

The gross carrying amounts of credit impaired receivables are written off (either partial or full) when there is no realistic prospect of recovery. This is generally the case when the combining entities determine that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. Nevertheless, receivables that are written off could still be subject to enforcement activities.

The carrying amounts of the financial assets recorded on the combined statements of financial position at the end of the financial period/year represent the combining entities' maximum exposure to credit risk except for financial guarantees provided to banks for banking facilities granted to an associate, companies in which Directors have interest and third parties.

There are no significant changes as compared to previous financial period/year.

*Credit risk concentration*

As at the end of the financial period/year, the combining entities have 2 customers (31.12.2024: 1, 31.12.2023: 2 and 31.12.2022: 3) that owed the combining entities more than 10% each and accounted for approximately 40% (31.12.2024: 46%, 31.12.2023: 45% and 31.12.2022: 91%) of the trade receivables.

**(ii) Liquidity risk**

Liquidity risk refers to the risk that the combining entities will encounter difficulty in meeting its financial obligations as they fall due. The combining entities' exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities.

The combining entities' funding requirement and liquidity risk managed with the objective of meeting business obligations on a timely basis. The combining entities finance their liquidity through internally generated cash flows and minimises liquidity risk by keeping committed credit lines available.

The following table analyses the remaining contractual maturity for financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the combining entities can be required to pay.

The combining entities' fixed rate deposit with licensed bank and borrowings are exposed to a risk of change in their fair value due to the changes in interest rates. The combining entities' variable rate borrowings are exposed to a risk of change in cash flows due to changes in interest rates.

The combining entities manage their interest rate risk exposure from interest bearing financial instruments by obtaining financing with the most favourable interest rates in the market. The combining entities constantly monitor their interest rate risk by reviewing their debts portfolio to ensure favourable rates are obtained. The combining entities do not utilise interest swap contracts or other derivative instruments for trading or speculative purposes.

The combining entities do not account for any fixed rate financial liabilities at fair value through profit or loss ("FVTPL"). Therefore, a change in interest rates at the end of the reporting period would not affect profit or loss.

**Interest rate risk sensitivity analysis (Cont'd)**Cash flow sensitivity analysis for floating rate instruments

A change in 1% interest rate at the end of the reporting period would have increased/(decreased) the combining entities' profit before tax by RM27,687 (31.12.2024: RM19,702, 31.12.2023: RM4,446 and 31.12.2022: RM4,567), arising mainly as a result of lower/higher interest expense on floating rate loans and borrowings. This analysis assumes that all other variables remain constant. The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

(c) Fair value of financial instruments

The carrying amounts of short-term receivables, payables, cash and cash equivalents and short-term borrowings approximate their fair value due to the relatively short-term nature of these financial instruments and insignificant impact of discounting.

**28. Capital management**

The combining entities' objective when managing capital are to safeguard the combining entities' ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the combining entities may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The combining entities monitor capital using a net gearing ratio. The combining entities' policy is to maintain a prudent level of gearing ratio that complies with debt covenants and regulatory requirements. The net gearing ratio at the end of the reporting period are as follows:

**Clause 58 – Power to increase capital**

Subject to the Act, this Constitution, the Central Depositories Act, the Rules, the Listing Requirements, any other relevant authority for the time being in force, and the conditions, restrictions and limitations expressed in this Constitution, the Company may from time to time by ordinary resolution, whether all the shares for the time being issued shall have been fully paid-up or not, increase its share capital by the creation of new shares, such new capital to be of such amount and to be divided into shares of such respective amounts and to carry such rights or to be subject to such conditions or restrictions in regard to dividend, return of capital, voting or otherwise as the resolution authorising such increase may direct.

Subject to any direction to the contrary that may be given by the Company in general meeting and the Listing Requirements, all new shares or other convertible securities shall, before issue, be offered to such persons as at the date of the offer are entitled to receive notices from the Company of general meetings in proportion as nearly as the circumstances admit, to the amount of the existing shares or Securities to which they are entitled. In any case and in respect of any issuance of shares or convertible securities, the pre-emptive rights of Members are strictly as contained in the Constitution and accordingly, the provisions of Section 85 of the Act in respect of pre-emptive rights to new shares, shall not apply and the Company is not required to offer new shares or convertible securities in proportion to the shareholdings of the existing Members.

Any shares so purchased by the Company shall be dealt with in accordance with the Act, the Listing Requirements and all Applicable Laws. The provisions of Clauses 61 and 62 herein above shall not affect the power of the Company to cancel any shares or reduce its share capital pursuant to any exercise of the Company's powers under this Clause. The cancellation of shares purchased shall not be deemed to be a reduction of share capital within the meaning of the Act.

**15.2.3 Transfer of securities**
